DELIEVE PACIFIC PACT WILL PASS UNAMENDED. Administration Plans to Put Treaty Through as It Is Despite Violent Attack by Senator Borah.

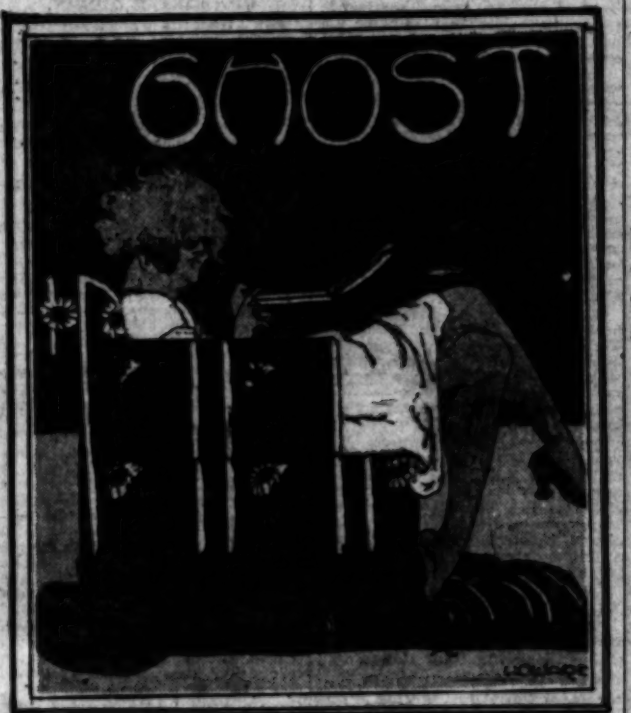

WASHINGTON, Jan. 1.—While Senator Borah was making a public attack today on the four-power Pacific treaty as a militaristic alliance likely to involve the United States in war to protect the aggressions of Japan, England and France in the Far East, it became known that the administration has perfected plans to put the pact through the Senate without reservations.

At a conference of administration Senators presided over by Senator Lodge, the Republican leader, the Borah reservation to exempt the United States from the use of force was pronounced unnecessary because the treaty merely obligates America to discuss with the other contracting parties the means of dealing with any dispute or Japanese aggression in the Pacific.

It is not unlikely, however, that the McNary reservation to exclude the Japanese homeland from the purview of the agreement will be met by a new construction of the treaty by the negotiators. This question is now being discussed by Secretary Hughes and Baron Shidehara, the Japanese Ambassador.

Republican leaders are confident that less than a dozen votes will be cast against the treaty in the Senate. Senator Borah, speaking before the National Council for Limitation of Armaments this afternoon, proposed a reservation which he said "would be a test whether this treaty is based on justice and therefore a peace alliance or a treaty based upon force and therefore a military alliance." The proposed resolution follows: "The high contracting parties to the Pacific pact shall be bound to maintain the peace and to refrain from any act of aggression against each other."

SHOCKED .. DEAN .. OF .. COLLEGE. Illustrations Which Stopped University Paper.

"Feeling of the Belle."

In the upper panel is shown the sketch on the cover of the Ghost, the Washington University monthly publication that shocked the dean so that he asked that it be suppressed. Other illustrations and jokes the dean regarded as suggestive and entirely out of keeping with what a college publication should be. In the lower panel is shown another entitled "The Feeling of the Belle," which was particularly unflattering, he thought.

LATE MORNING NEWS

FOUR HIT BY AUTOS; TWO ARRESTS

A Chinaman was perhaps fatally injured, a taxi driver was locked in the City Jail on a charge of failing to stop and give assistance after an accident and a salesman and a local business man were arrested on charges of reckless driving, as the result of automobile accidents last night.

In the case of the salesman, L. B. Smith of 1815 East Florence avenue, two women, Miss Minnie Dunsby and Bernice Dodge, and a sixteen-month-old baby, Roy Dodge, all of 1748 Griffith avenue, were bruised when hit by the Smith auto at Twelfth and Main streets.

The Chinaman, Won Wong, aged 40 years, of 819 South Grand avenue, suffered a possible skull fracture and other injuries when he was struck at Aliso and Los Angeles streets by a taxicab. Raymond C. Morris, a driver for the Yellow Taxicab Company, is said to have been piloting the cab. Stephen Flam of 440 San Fernando Road, Glendale, chased Morris about twenty-five blocks and compelled him to report at Central Police Station, where he was arrested by Detective Sergeant Beltrande. Morris denies that he was driving on Los Angeles street and asserts that Mr. Flam was mistaken.

After he had backed his automobile into a machine owned by Noah Seery of 4221 Ivarine street at Wilshire and Hobart boulevards, Benjamin F. Tatem of 935 West Seventh street was arrested on a charge of reckless driving by Detective Sergeant Ziegler and Allen. Tatem is said to have been driving without lights. He declared he was unable to use the lights because of a mechanical difficulty. He was released on \$100 bail.

MACHINES STALLED ALONG ROADS

With water running across the highways like a mill race, automobiles which arrived in Los Angeles early this morning from San Diego reported having had a most strenuous trip. Near Fullerton and at Santa Fe Springs more than a dozen machines are stalled, with water running up to the hubs. In the Santa Ana district orchards are under water. One of the worst places is three-quarters of a mile from Fullerton, caused by the Santa Ana River flooding farms and roads. The Telegraph Road near Santa Fe Springs also was flooded for a considerable distance, it was stated.

SLAIN BANK BANDIT IS IDENTIFIED

STOCKTON, Jan. 1.—The body of the bank bandit slain Thursday in a gun fight with Deputy Sheriff J. W. Wheatley was today identified by Sidney Lee of Delhi as not being that of "F. W. Ritten-cutter, first lieutenant, Co. D, Eight Hundred and Sixteenth Infantry," whose name was stamped on camping equipment carried in the automobile of the robber. Mr. Wheatley is reported as improving.

MANY ACCIDENTS MARK NEW YEAR

NEW ORLEANS, Jan. 1.—Three persons killed, a policeman shot and wounded probably fatally, one man killed when run down by an automobile, one man dead, eleven persons reported shot and six others injured in other accidents—these were the toll of the New Year's celebration reported to the police here. Thirty-five men were arrested for discharging firearms within the city limits.

NORTH BROADWAY WALL CRUMBLES

During the heavy rain yesterday fully 100 feet of the cement retaining wall on the south side of Elysian Park, fronting North Broadway, crumbled, allowing many tons of dirt and rock to push out into the street. Incoming traffic was blocked, but the street-car tracks remained clear.

JOHN KENDRICK BANGS SERIOUSLY ILL

ATLANTIC CITY, Jan. 1.—John Kendrick Bangs, author and lecturer, who has been making his home in Ventnor City, near here, is seriously ill in a local hospital.

FIVE-POWER NAVAL LIMITATION TREATY NEARS FINAL FORM

WASHINGTON, Jan. 1.—The Arms Conference begins the new year with most members looking toward a final adjournment two weeks hence, despite the prospect of having to clear away several troublesome issues.

An American delegate predicted today that the five-power naval limitation treaty would be put into final form this week and that next week a settlement would be effected covering the Far Eastern dispute. The same expectation was echoed in the foreign delegations, most of whom have made definite plans to leave about the middle of January.

FAVOR SPEEDING UP. A tendency to press the negotiations to a conclusion, even if some original hopes for accomplishments have to go by the board, is evident in many quarters. Delegates are said to feel that seven weeks of discussions have fully developed the various national viewpoints, and little is to be gained by prolonging debate.

In pursuance of this policy, the naval experts will spend tomorrow at work. None expects to find serious difficulty in the technical adjustments remaining to be formulated to cover such questions as methods of replacement and scrapping and there is a general feeling that the end of the week may see a plenary session for an announcement of a formal five-power naval treaty.

CABLE TREATY. Announcement may be made of the new six-power treaty participating the former German cable properties in the Pacific. This instrument has not received the formal approval of all interested nations, but the delegates seem confident unanimous assent will not be long delayed.

The Far Eastern problem seems to be developing some difficult phases. The Chinese and Japanese are deadlocked, the Chinese request for conferences discussion of the twenty-year demands is meeting with determined opposition from the Japanese and the Siberian situation has come into prominence through publication of alleged secret understandings between the Japanese and the French governments concerning a Japanese policy toward Siberia.

MAKE SERIOUS CHARGES. An unofficial commission sent to the conference by the Far Eastern republic of China, Siberia, made public the alleged agreements. They were denied by the French and Japanese plenipotentiaries, who denounced the document as a fabrication. The commission also charged the Japanese with a "forgery" and "malicious falsehood."

When the accusation will come formally before the conference is uncertain, since Far Eastern representatives not only are not members, but are speaking for an unrecognized government. The Siberian situation, however, is on the agenda of the conference, and the Chinese and the Chinese delegation may inject the charges into the negotiations.

PLENARY SESSION. If a plenary session is held this week it is not impossible that some clarifying instrument to define the scope of the four-power Pacific treaty with reference to the

(Continued on Second Page.)

ALTER RULES OF ROAD. British Columbia Abandons Left-Hand Turn in Traffic; No Accidents on First Day.

VANCOUVER (B. C.) Jan. 1.—For the first time in history all traffic turned to the right in British Columbia today. The historic left-hand pass which was handed down as a heritage from their British ancestors was a thing of the past to the Canadians as the new law went into effect. Not only did nearly every vehicle have chains on today, but pedestrians also had their nonshoes ready to apply with the changed rule of the road.

As the change was made at 4 a.m., the majority of New Year's Eve celebration parties had arrived home and there were hundreds of automobiles put away by their owners on New Year's Eve not to be brought out until the "other fellow" has become accustomed to the alteration in traffic regulations.

TRAFFIC IS LIGHT. Traffic was slight all day and barring minor bumps the new conditions on the streets did not bring forth any accidents. Motorists were noted to be avoiding the car line streets and the majority had taken off their curtains to more readily see the movement of traffic.

People of British Columbia never assumed as military an appearance as they did today when they turned right-angle corners with all the precision of the end of a military squad. The streets of the city have been posted every yard for weeks with signs of warning against accident on January 1 and with the street cars as a guide, vehicle drivers

were but little nervous about the alteration. In the matter of street cars people could be seen all day running from the wrong to the right side to board cars, but as everywhere was on the lookout and the motor men were especially cautious, accidents were avoided.

SOURCE OF TROUBLE. Most people in British Columbia have had a source of trouble to their cars in the State of Washington and with this training behind them they soon swung into line and moved along as if they had been doing it that way all their lives.

The left-hand turn has always been a source of trouble to people coming from other countries or provinces and numerous accidents have been caused by visitors who did not know of the left-hand turns here. Police officials state that they do not expect any accidents for the first two or three days and every person is using every precaution to prevent accidents, but they fear that after the novelty has worn off there may be some trouble.

CURBING LAW VIOLATORS.

Anti-Saloon Head Declares New York New Year Far Drier Than Heretofore.

NEW YORK, Jan. 1.—Father Knickerbocker turned his pockets inside out today to pay the piper for piping in the New Year amidst a volcano-drying celebration. Police records commented four violent deaths attributable to holiday overindulgence, sixteen men and women in hospitals with gunshot or knife wounds, a half-dozen poisoned by liquor and scores of arrests by members of the dry squad of 300 who attempted to make it the driest New Year's Eve Broadway has seen.

Between midnight and 2 o'clock, seven raids by prohibition officers were reported, including a descent on Rittenberger's prohibition agents confiscated many private stocks of liquor and served summons on John Gorman, the manager, his son and a half-dozen merry-makers.

Greenwich Villagers had their frolic much as in the former years. At 4 this morning they were still at it, costumed maskers dancing in Washington Square.

REMEMBER THIS

If you want to know how great you are, ask yourself how many people are dependent upon you.

DON'T PAY SOFT-DRINK WAR TAXES

Help Soda Fountain Men Remember That Penny Levy is No Longer in Force

CHICAGO, Jan. 1.—Many war taxes expired at midnight last night, but the public generally is not yet aware that it should cease paying these "nuisance taxes." In Chicago druggists and dispensers of soft drinks were the last to hear of the change and continued to collect the extra pennies and nickels. Many merchants deluded less will continue to collect these taxes until angry patrons report them to the government. Here are some of the benefits of the new law:

Railroad tickets and steamer tickets no longer pay 1 per cent of the price. Seats, berths and staterooms also are exempt from 1 per cent tax.

All war taxes off sodas, ice creams and all kinds of soft drinks and ices. All taxes off toilet preparations, tooth pastes and similar articles. Report the merchant who continues to collect for any of these.

Motion-picture tickets costing 10 cents or less escape tax. Tickets costing more than 10 cents must continue to pay 1 cent for each additional 10 cents or fraction thereof.

TOURNAMENT TO BE HELD.

Football Game Also, Despite Weather, Says President of Association.

The 1921 Tournament of Roses will be held today rain or shine, according to the schedule. The parade will move promptly at 10:45 and the kick-off at the football game will be at 2:30.

This is the last-minute statement of J. J. Mitchell, president of the Tournament of Roses Association, given out last night.

During the afternoon yesterday a conference was held between Mr. Mitchell, Luther Nichols, graduate manager of the University of California football team, R. M. Murphy, manager of student athletics of Washington and Jefferson College and W. F. Culler, chairman of the Tournament of Roses football committee. It was the unanimous opinion that weather conditions should not be permitted to interfere with the program for the day as had been arranged.

SALVATIONISTS SET HIGH MARK.

Million Given Christmas Meal by Army Workers.

Five Thousand Here Receive Holiday Baskets.

Children of Poor Parents Are Remembered.

Meals for a million. The ambition of the Salvation Army in America was achieved on Christmas Day according to tabulation received yesterday from national headquarters by Brig. C. R. Boyd, divisional commander for Southern California.

Coincidental with the news that the Salvation Army had broken all records for Christmas benefactions, came the news that Senator Kenyon of Iowa, debating the bonus bill on the floor of the United States Senate, had publicly eulogized the work of the Salvation Army in times of peace.

Not the least notable in the achievements of the Salvation Army on Christmas Day was the activity in the Los Angeles sector, where, in spite of the rain, a dozen Christmas trees and celebrations were conducted and more than 1800 deserving people furnished with Christmas dinners.

AIDED BY POLICE.

The unusually large number of families served was due to the co-operation of the fire department and the police department. Both firemen and policemen reported scores of families and individuals too weak, too sick or too proud publicly to appeal for charity. These were visited by Salvation Army officers and made comfortable on Christmas Day.

From Warden Johnson of the State Penitentiary, Brig. Boyd secured a list of the convicts' families in this district, and on Christmas Day clothing, food and toys were delivered at the door with the cheering message, "Daddy didn't forget you."

Two particular Christmas trees were covered with toys for little folks by the Army. At the Rescue and Maternity Home, 515 North Griffin avenue, twenty-eight unwed mothers and their babies gathered to enjoy the celebration. At the Day Nursery, 414 Crocker street, nearly half a hundred children of working mothers made merry during the entire afternoon.

JOBLESS ARE FED.

At the Industrial Home at 127 Weller street, 180 men temporarily out of work and sheltered by the home had free dinners and participated in a meeting of songs of home and boyhood. Five hundred baskets, each containing a dinner with all the fixings for five people, were distributed from the corps halls at 254 South Main street, 1214 Weller street, North Main and Market streets, 729 Kohler street, and 2527 Stephenson avenue. At the Young Women's Boarding Home, 515 South Grand avenue, 150 working girls had dinner and entertainment.

All over the Southern district, wherever the Salvation Army has its outpost, Christmas was observed in the giving of gifts and spreading of Christmas cheer.

"All the Salvation Army did was to act as the connecting link between the generous-hearted givers to its Christmas fund and the desolate-hearted people to whom Christmas would have been a cheerless day," declared Brig. Boyd, yesterday.

The Salvation Army had the pleasure of distributing gifts of food, furniture, clothing and toys, and the inspiration of smiles on faces that seldom smile, and people who thought they were forgotten that they were remembered, after all.

That Brig. Boyd proudly displayed a message just received from national headquarters quoting Senator Kenyon's brilliant eulogy in connection with the bonus bill. "Here's the Christmas present for the Salvation Army and for every one of its thousands of officers and soldiers in America," said the brigadier.

MARINE IS AWARDED MEDAL FOR BRAVERY.

(BY A. P. NIGHT WIRE.)

HOUSTON (Tex.) Jan. 1.—For an act of bravery "above and beyond ordinary duty of man" performed when he swam a swollen river near Noan, Tex., September 16, last, and saved the Southern Pacific's Sunset Limited from possible wreck, William A. Redd, Jr., a former marine, tonight was awarded the medal of the Ace High Foundation of New York.

Is That Cold and Cough Hanging On?

DISCUSS FUTURE PARLEYS.

Harding Proposal for Continuing Conferences Is Coming to Fore; Would Lead to World Association.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Jan. 1.—With the Washington negotiations approaching a conclusion, President Harding's proposal for a future series of similar meetings is coming to the front again in the informal discussions of the delegates.

Thus far, if outward manifestations are taken as a guide, the future conference question has been one of the least clearly defined of all issues considered here. Most delegates believe they can see the end of their labors in connection with both armament and the Far East, but some seem to have a clear idea of what action is likely to be taken toward a reconvening of the powers to discuss world problems.

WOULD DISAPPOINT HARDING.

When the President's suggestion for a continuing series of international gatherings first emanated from the White House, it was said by high administration officials that the plan might be regarded as a stepping-stone to an "association of nations." Mr. Harding, it was declared, would be greatly disappointed if no agreement for future meetings came out of the Washington conversations.

At that stage of the conference, when definite settlements appeared likely on all classes of naval armament as well as all of the "troubled problems of the Far East," the suggestion found support in practically every foreign delegation.

ACTION SEEMED LIKELY.

It was agreed that some action to fulfill the President's desires seemed likely when the primary purposes of the conference were attained.

Developments since, however, have called to what already has been done toward future conferences, as forming at least a piecemeal beginning toward realization of the President's hopes. The four-power treaty, providing for consultation between the United States, Great Britain, Japan and France, in any threatened breach of the peace in the Pacific; creation of continuing commissions and other agencies to help solve the Chinese problems; and the virtual decision to have another arms conference, six or seven years hence, to discuss extension of the naval holiday, all are pointed to by American officials as steps in the right direction.

But whether a definite, concrete plan for periodical consultations is to be laid before the conference before it ends remains unanswered.

BROTHER DECLARES DEAD MAN MALIGNED.

ASSERTS PRESS DISPATCHES DID PORT BRAGG YOUTH INJUSTICE.

(BY A. P. NIGHT WIRE.)

STOCKTON, Jan. 1.—James Burton Enders of Port Bragg, who arrived here yesterday with the body of his brother, Leroy Enders, killed near Garberville, Humboldt county, Wednesday, by S. P. Slippy, an aged rancher, states that an injustice has been done his brother in the press dispatches, in so far as it is related that Leroy shot at the rancher, according to a statement made to his brother, Will Enders of Stockton, and which was published in the Stockton Independent today.

According to the statement related to Will Enders by his brother, Leroy was traveling along the highway and stopped at the cabin of Slippy and asked for a meal which the old rancher had ready and which was refused. Up on Roy not moving when ordered away, Slippy seized a rifle and shot at him. Enders then ran to the barn to escape the bullets, and upon emerging from the building, the old rancher again shot, hitting the boy in the stomach. Leroy did have a gun, so the brother here states, but after the tragedy the gun was found still loaded, there being no empty shells in it.

According to the brothers, Leroy served in the Coast Artillery during the war, stationed at Honolulu, where he was discharged and sent to Letterman Hospital, at San Francisco. He had never fully regained his health, making it impossible for him to engage in steady work. It was while in search of outdoor employment that he lost his life.

Makes Typewriting Record.

STRAUSE (N. Y.) Jan. 1.—Writing an average of ninety-two words a minute for 15 minutes, with only thirty-one errors in fifteen pages of legal-size paper, D. J. Tannenholz of New York Friday set a new world's record court reporters' style typewriting.

Back Achy? Feel "All Played Out?"

"Every Picture Tells a Story"

Is that bad back wearing you out? Are you tired, lame and achy in the morning; tortured all day long with nagging backache and sharp, stabbing pains? Evening find you weak, worn-out and discouraged? Surely, you don't want to go on from day to day enduring such needless suffering! So why not find out the cause and correct it? Chances are you have given no thought to your kidneys. Yet, more than likely a cold, a chill, or a strain has weakened your kidneys and brought on that constant backache; those sharp, rheumatic pains; the headaches, dizziness and distressing bladder irregularities. But don't be discouraged! Simply realize that your kidneys have fallen behind, and give them the help they need. Use Doan's Kidney Pills. Doan's are recommended for just such troubles. They have helped thousands and should help you. Ask your neighbor!

Read How These Los Angeles Folks Found Relief:

MRS. W. E. TATE, 1332 E. 26th St., says: "My kidneys were out of order and I had dull, nagging backaches. I became run down and had no energy. The action of my kidneys was irregular and I knew they were the cause of my trouble. I used Doan's Kidney Pills and they soon cured me of all signs of the trouble. I am confident Doan's are a good remedy for kidney complaint."

GUSTAV GREENEWALD, 827 Core Ave., says: "Serious kidney trouble compelled me to lay off work. My left kidney was particularly painful and at one time I was perfectly helpless. Thinking it might be lumbago or rheumatic pain, I began using Doan's Kidney Pills. After two boxes I was absolutely cured."

OVER FIVE YEARS LATER Mr. Greenwald said: "Doan's cured me of a case of kidney trouble and I have had no complaint since."

MRS. M. E. LARSON, 908 E. 26th St., says: "I am always ready to say a good word for Doan's Kidney Pills. I had severe attacks of backache and I could hardly get up or down, especially mornings. I often had dizzy spells and the action of my kidneys was irregular. I read of Doan's Kidney Pills and used the backache and other symptoms of kidney complaint. I know they are worthy of a trial."

CAMPBELL NOT A CANDIDATE.

Next Fall's Campaign Main Topic in Arizona.

Dwight B. Heard of Phoenix Likely to Run.

Cattle Growers' Association is Backing Him.

(EXCLUSIVE DISPATCH.)

TUCSON (Ariz.) Jan. 1.—Around Republican headquarters is much speculation concerning the identity of next fall's gubernatorial candidate. One thing appears assured—that Tom Campbell will not be a candidate for Governor. There have come even intimations that he will leave politics entirely, not even accepting the Republican nomination for Senator, which would be his without contest. Hope there is that he may be induced to become a candidate for the party associates believe him the strongest man before the election in all Arizona.

Within the party is belief that the State will continue Republican. It is appreciated that the last election in Arizona had much help from the national landslide, help that will be lacking in the off year of 1922. But very much to be considered is the fact that the Democratic strongholds of the State have lost about half their voting strength since last election. In the mining camps was to be found the heavy Democratic vote, and nearly all the Socialist element. Democrats admit a loss of around 6000 votes of miners who have gone elsewhere and who are not likely to return by next election time.

MENTION DWIGHT B. HEARD. In the event Campbell refuses another term, the Republican nomination for Governor may fall to Dwight B. Heard of Phoenix. He is said to be willing. His political activities heretofore usually have been with the Progressive party, which was strongly supported by the Phoenix Republican, a journal mainly owned by him. He has been very active in public affairs, heading the State Council of Defense, the Phoenix Chamber of Commerce, the Arizona Good Roads Association, the Arizona Cattle Growers' Association, the National Live Stock Association, Phoenix Realty Board and other bodies, and only lately he returned from Washington, where he had been working at his own expense, for tariff protection for Arizona long-staple cotton. An other candidate is understood to be Thomas Maddock, who has been State engineer during the Campbell administration and who was the chairman of the Republican State Committee in two successful elections, as well as carrying on the defense in the noted Hunt-Campbell contest.

While in France he sought nomination as Senator in a three-cornered primary fight in which Ralph Cameron won. Maddock would have the support of the Republican State organization and probably of most of the county organizations, and is considered as favored in the race by reason of his exceptional political ability and experience.

DEMOCRATIC SIDE. On the Democratic side, especial mention is made of Judge Rawshie E. Stanford of Phoenix, now and for years past on the supreme bench of Maricopa county. He has been classified as rather on the "progressive" side of the Arizona Democracy, yet is said to be in disfavor with the Hunt party, something due to his decision for Campbell in the Hunt contest, which was tried before him. It is not improbable that this will be one of the matters political that will be submitted to former Governor Hunt on his return, in February, from Spain. Stanford is popular in Maricopa county, where he has received large majorities whenever he has offered himself for office. There is, however, the fact that he is in

MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.)

DETROIT, Jan. 1.—Movement of freight through the American and Canadian locks here during the 1921 navigation season, closed officially December 24, aggregated 41,559,284 short tons.

The mere ruling of a Federal judge does not seem to make much impression on the sale of material for the making of home brew in Detroit. Signs appear in the stores now reading: "Materials must not be used to make intoxicating liquor or brews."

A tax rate for the new year no higher than last year, and possibly lower, with a lower rate surely next year, barring the unforeseen, is Mayor Couzens' plan for city taxation the next two years, he announced today.

DES MOINES, Jan. 1.—W. H. Halsey, state distributor, has been freed of all charges lodged against him for the alleged killing of two sisters of charity when his auto struck them.

The packing strike situation at Sioux City has greatly improved, according to Oscar O. Rock, chief of the Bureau of Criminal Investigation.

MILWAUKEE, Jan. 1.—A night-ice carnival, skating games and ice boating, free to all, commenced Saturday night on the bay fronting the city of Lake Geneva. The ice is in excellent condition and a space a quarter of a mile square has been illuminated with electricity.

A quantity of liquor was carried away by summer resort burglars, who made a raid on the country homes of Milwaukee men at Crystal Lake in Sheboygan county.

Prosecution of several Milwaukee residents may result as an outcome of an investigation of profiteering charges against dealers here by the Women's Fair Price League, details of which are before the United States District Attorney.

ST. LOUIS, Jan. 1.—A claim for half of the \$128,000 estate left by the late William T. Egan, murderer of Democratic politician, was filed by Mrs. Margaret Crane Egan, who asserts that she was the common-law wife of Egan.

The biggest poultry show ever held in St. Louis opened at the Coliseum with about 2500 fowls on exhibition. In addition there is an exhibit of about 500 pigeons and 300 rabbits.

Democratic supporters of Breckinridge Long of St. Louis are expecting him to announce within the next three weeks his candidacy for the Senate as a primary opponent of Senator James A. McPherson.

KANSAS CITY, Jan. 1.—Norma Kean, one of the babies taken December 22 from the Harry M. Evans home to the general hospital suffering from malnutrition, is dead. It was the seventh death among twelve babies taken from the home in the last two weeks.

The Missouri Farmers' Association has agreed to join the Farmers' Union of Kansas in the operation of a live-stock commission company here.

The finding of approximately 2000 fowls on exhibition for any office other than judicial, this under the provision of Section 21 of the judicial section of the State Constitution, which apparently denies Supreme and Superior Court judges the right to run for public office during the term of their offices. On the Democratic side are many prospective gubernatorial candidates, but greater definition of their aspirations will be given at and following a meeting of the State Democratic Committee, called for early in January.

PIONEER'S EXPERIENCE. George J. Redrup, elected president of the Arizona Pioneer Historical Society, chose for his inaugural address details of his hardships on entering Arizona in 1875, when he was almost without

1900 water-cooked election ballots in a sand bar in the Missouri River near Cement City caused a mystery at the office of the board of election commissioners.

INDIANAPOLIS, Jan. 1.—Shortage of \$7,469.92 in the funds of the city of Indianapolis has been discovered, and Junior Benjamin, Deputy City Treasurer, is missing, according to a report in the office of the City Treasurer.

Quincy Alden Myers, ex-judge of the Supreme Court of Indiana and a member of the law firm of Myers, Gates and Ralston, is dead.

New charges of neglect of duty in law enforcement by local officials were filed with Atty.-Gen. U. S. Lash today following the announcement that prosecuting attorneys for the State are to meet in Indianapolis January 11 to inaugurate a campaign against all classes of criminals and of officials refusing to enforce State and Federal laws.

DENVER, Jan. 1.—The Moffat road will not be abandoned; something will be done to complete it, U. S. Senator Lawrence C. Phipps gave this assurance to the Lions Club at its luncheon.

Between 2000 and 3000 rabbits will be distributed free to the needy of Denver by Jim Goodheart of the Sunshine Mission about January 6.

William L. Dayton, one of the leaders of the Colorado Bar and prominently mentioned for the Federal district judgeship to succeed Judge R. E. Lewis, is dead.

OMAHA, Jan. 1.—The wage scale for carpenters on the Columbus Courthouse was cut from 75 to 40 cents.

The oil-well project at Agate has proved a failure and drillers are now taking the machinery and casing away. Only light and unsatisfactory oil indications were developed.

MINNEAPOLIS, Jan. 1.—With six permits for new apartment-houses issued by the building inspector today and another for the new Bryant school pending, James G. Houghton, building inspector, said 1921 in all probability was the banner building year in the history of Minneapolis.

Attracted by reports of alleged discoveries of gold in Northern Minnesota, John H. Moe of Fairbanks, Alaska, mining operator, has arrived at Hibbing to make investigation of the claims with a view of offering capital for development.

Mr. and Mrs. H. J. Tremaine and son Raymond and Glendon, have departed for Los Angeles where they are to live.

Mr. and Mrs. F. W. Tedball will leave next week for Southern California.

It has central quarters on Congress street, containing hundreds of books and records of historic importance as well as files of pioneer papers and many such relics as the first newspaper press ever brought to Arizona and a stone burl from the first Tucson flouring mill. Around the walls are photographs of many of the leading pioneers of the State. The society has official recognition and is partially supported by legislative appropriation. There is hope that soon the collection will be housed in a fireproof building, where the relics will be secure and may be preserved.

NOGALES PUMPING PLANT. NOGALES (Ariz.) Jan. 1.—A saving of nearly \$40,000 has been made by the city in the installation of an electric pump, at a cost of less than \$20,000, this favored over a more costly oil engine unit. The city water supply is to be furnished hereafter by a deep-well turbine pump.

GLOBE (Ariz.) Jan. 1.—There has been an arrest of Juan Walter, an Indian who served a year of a ninety-nine-year sentence in the State penitentiary, a few years ago after conviction of murder, and who was released on the confession of two outlaws, afterward acquitted, who confessed to killing the men for whose death Walter was punished. This later arrest has been merely for participation in a "tule" party of a number of Apache boys and squaws, who were holding a revel around six five-gallon cans of the aboriginal firewater, and were drunk when surrounded by three officers of the law.

Globe is to have a new system of ornamental street lighting and has entered into a ten-year contract with the Globe Light and Power company to furnish the necessary current at the rate of 9 cents per kilowatt hour, the corporation to maintain the system and pay for all necessary labor on it. New lights not more than 200 feet from existing installation will be installed by the company.

DOUGLAS (Ariz.) Jan. 1.—Douglas and Bisbee commercial bodies are fearful of automobile travel by reason of the many fines inflicted on speeders on the concrete highway between the two cities. It is told that travelers are being advised at Tucson not to pass through the two places, as "they were laying for the touring car." The local Chamber of Commerce has taken itself on record as believing that 125 is too steep a fine for a first-offense speeder.

Madison Square Garden Profitable. NEW YORK, Jan. 1.—Madison Square Garden yielded to the Federal and State governments from Aug. 1, 1920, to Dec. 31 last, \$155,917 in property and amusement taxes, according to a compilation made by the Richard, Isaac and Co. building.

YAP MEN GRAB GIRLS FOR WIVES

Caroline's Ladies Call Disputed Land "Isle of the Cave Men."

(BY CAME AND ASSOCIATED PRESS.)

YAP, Jan. 1.—The Isle of Yapmen is the name given to the native girls of the Caroline Islands.

For generations Yap bachelors swooped down on the neighboring islands in big canoes and carried off the village belles, defying all attempts of angry fathers and brothers to recapture them.

scores of men have been killed over these dusky queens, but the cave-men stuff is still popular and the girls seem to like it. Sometimes a kidnapping party compromises with relatives by paying down a substantial sum in money. The Yap dollar is a round stone with a hole in the center and a few of them are usually enough to soothe the feelings of the families.

If a girl is especially beautiful, or if her father is a powerful chief, the price comes higher. The Yap boys then club together and get stones of larger denominations, perhaps five feet in diameter which are considered small for Yap.

When a girl is installed in her new home, she is tattooed with blue lines on the hands and legs. These marks are highly prized as a certificate of beauty. There are now many old women in Yap who point with pride to the tattooing as proofs of their vanished beauty.

Two Catholic priests preach frequent sermons against the kidnapping, but they do not make much impression on the young bucks of Yap. Under the Japanese, the cave-men business has languished somewhat, as the natives are not permitted to visit distant islands. But within limits the old customs are still kept up.

If the Yap boys ever have to get wives by the civilized method, they will feel that somebody has taken the joy out of life. The girls will too.

BRITISH BATTLESHIP BELIEVED FOUNDERED
(BY CAME AND ASSOCIATED PRESS.)
CHEROBOURNE, Jan. 1.—Up to a late hour last night there was no trace of the British battleship Vanguard and the belief is expressed she has foundered with the crew of fourteen in charge when she went adrift in a storm in the English Channel while on the way to be dismantled.

LONDON AMERICANS MEET YANK STUDENTS

(BY CAME AND ASSOCIATED PRESS.)
LONDON, Jan. 1.—American residents here were given an opportunity yesterday to meet American students in England at a reception tendered by the American Consul-General, Robert F. Skinner, and Mrs. Skinner, assisted by Dr. G. E. McLean, director of the British division of the American University Union in Europe.

There are approximately 400 American students in England, 175 at London and 155 at Oxford.

NEW YORK "TIMES" ENLARGE QUARTERS

(BY A. P. MURPHY WIRE.)
NEW YORK, Jan. 1.—The New York Times announced last night that it would double the size of its various departments in the next few months by the acquisition of an eleven-story building and make a part of the Times Times annex on West 42nd street.

GOTHAM HEALTHIEST PLACE TO BE BORN
(BY A. P. MURPHY WIRE.)
NEW YORK, Jan. 1.—New York City is the safest place in the world for a baby to be born, Health Commissioner Campbell declared, making public mortality statistics for 1921. The annual death rate in 1921 was per 1000, a new city record compared with 12.93 in 1920.

NEW YORK "TIMES" TO
ENLARGE QUARTERS

NEW YORK, Jan. 1.—The New York Times announced last night that it would double the capacity of its various departments in the next few months by the erection of an eleven-story building adjoining and made a part of the present Times annex on West Forty-third street.

GOTHAM HEALTHIEST
PLACE TO BE BORN

NEW YORK, Jan. 1.—New York City is the safest place in the world for a baby to be born, declared Commissioner Copeeland yesterday, making public mortality statistics for 1921. The general death rate in 1921 was 1.14 per 1000, a new city record, compared with 12.93 in 1920.

VETERANS' AID
ON THE SHOALS.Government's Work Drifting
Toward Disruption.Plan to Discharge Medical
Officers Wrong.Jones and Taylor Fight
Bureau's Scheme.

(REUTERS DISPATCH.)

WASHINGTON, Jan. 1.—Disruption of all that the government is doing for the disabled World War veterans will result if the Treasury Department carries out a recommendation of the Bureau of Efficiency to place upon a civilian status the medical reserve officers assigned to the United States Veterans Bureau by the United States Public Health Service, John Thomas Taylor, vice chairman of the national legislative committee of the American Legion, asserted yesterday. Mr. Taylor charged that the bureau's recommendation was an attempt to "make the payment of the disabled men a matter of politics."

Col. C. R. Forbes, director of the veterans' bureau, said in a conference with Mr. Taylor during the day that he opposed the plan.

"If adopted," he said, "it would mean the wrecking of what the United States Veterans Bureau is accomplishing on hospitalization and rehabilitation of veterans of the World War. Our present medical staff would be largely wiped out. The reserve officers would be thrown in the service if placed on civilian status."

Mr. Taylor said that of the 1676 reserve medical officers were assigned to the United States Veterans Bureau 1051 are veterans of the World War.

"These trained physicians must be retained," he said. "The American Legion is astounded to find that certain government officials seriously entertain a proposition that, if put into effect, will strike a damaging blow at the disabled war veterans, whom the people of the nation demand shall have the best of medical care and attention."

Treasury officials said tonight the recommendation had been made by Herbert D. Brown, chief of the United States Bureau of Efficiency, to Gen. Sawyer, the President's physician, who is at the head of the Federal board of hospitalization. No recommendation had been received by the department, and nothing has been or will be done without very serious consideration of the plans suggested by the Bureau of Efficiency.

NEW OWNERS FOR
EASTERN RAILROAD.

(REUTERS DISPATCH.)

CHICAGO, Jan. 1.—At midnight the Chicago and Eastern Railway Company, a newly organized corporation, took over the possession, control and operation of the Chicago and Eastern Illinois Railroad Company, which has been in the hands of a receiver under an order of the United States District Court entered December 9.

William J. Jackson, receiver for the defunct company, has been elected president of the new railway corporation, which was formed to take over all the property of the old company except the Brazil division. This branch formerly was owned by the Chicago and Indiana Coal Railway Company and has not been acquired by the new corporation.

SCALD JAILER AND
FLEE FROM CELLS.

(BY A. P. MONT WIRE.)

EAST LAS VEGAS (N. M.), Jan. 1.—After scalding the jailer and leaving him in insensibility, six prisoners escaped from the County Jail here last night. When Ricardo Uihbarri, jailer, took the men's supper into the cell house the prisoners threw a bucket of hot water which they had obtained at the sink into his face, blinding him, after which they attacked him with sticks of wood obtained from the wood box, beat him severely and escaped.

UNIVERSITY WOMEN
TO GIVE FELLOWSHIPS

(BY A. P. MONT WIRE.)

NEW YORK, Jan. 1.—Eight fellowships for women will be awarded for study in 1921-22 by the American Association of University Women. Prof. Margaret E. Matlin, of Barnard College, chairman of the association's fellowship committee, announced yesterday. This awarded in the thirteenth to be made by the association, which has 13,000 American women members.

ARMY REVISES
UNIFORM RULES.

(BY A. P. MONT WIRE.)

WASHINGTON, Jan. 1.—Regulations for the Army uniform have been revised in conformity with the general policy of the War Department to eliminate all differences between the three components of the Army—the Regular Army, National Guard and the organized reserves—so that reserve corps officers wear the same color insignia as Regular Army officers.

ENGLISH-SPEAKING
UNION TO EXPAND.

(BY A. P. MONT WIRE.)

NEW YORK, Jan. 1.—The English-speaking union will begin with the new year a program of country-wide expansion looking toward new State and regional branches in its efforts to "draw English-speaking peoples of the world," said an announcement yesterday by the president, John W. Davis, former Ambassador to Great Britain.

LEONARD DEFENDS TITLE

[BY A. P. NIGHT WIRE.]

MILWAUKEE (Wia.) Jan. 1.—Pinky Leonard, world's lightweight champion, will defend his title here tomorrow against *****

THIEVES GET NINE AUTOS.

The following autos were stolen from the streets of Los Angeles within the past twenty-four hours, starting off the New Year well for the thieving fraternity: Buick 1920 touring, 469851; Ford 1920 coupe, 281482; Studebaker 1919 touring, 469119; Ford 1920 touring, 421689; Oldsmobile 1918 roadster, 304851; Roamer 1920 four-passenger sport model, 488247; Cadillac 1917 Victoria, 286618; Cunningham 1921 touring, 617480, and Paige 1918 touring, 187516.

Anyone seeing any of the above cars is requested to notify the theft bureau of the Auto Club of Southern California or police headquarters.

Pinky Mitchell, a former Milwaukee high school boy, in what is expected to be the most important contest for the lightweight year.

The contest is to go ten rounds, and in accordance with the convention, no decision will be given if both men are on their feet at the finish. The match attracted tremendous interest, a capacity crowd is assured, the seats were sold twenty-four hours ago. The gate receipts hit the \$41,000 mark.

Leonard will receive a guarantee of \$15,000, with a privilege of a percentage, while Mitchell will receive a percentage, probably will draw down about \$11,000.

Leonard has twice knocked Pinky's brother, Richie Mitchell, who aspired to the championship, the younger Mitchell, regarded one of the best 135-pound box developed in the West in recent years, is determined to avenge those two defeats.

GOLF CHAMPIONS WITH FROM BAY CITY MI

[BY A. P. NIGHT WIRE.]

SAN JOSE, Jan. 1.—Jim Barnes and Jack Huthinson defeated Donald Smith of San Francisco and Al Abrego of San Jose, in eighteen hole match here to three up. The best medal was was Smith's seventy-one against Huthinson's seventy-two.

News of Southern Counties.

DEATH FOLLOWS AUTO ACCIDENT.

Woman Dies on Way to Crown City Hospital.

Husband Finds Wife Dead from Effects of Gas.

Rain Damages Decorations at Pasadena.

(LOCAL CORRESPONDENCE.)
PASADENA, Jan. 1.—Mrs. Charles B. Blacklock, 355 Ridgeview avenue, Los Angeles, was so severely injured in an automobile collision at Raymond and Orange Grove avenues at midnight that she died on the way from the Emergency Hospital to Pasadena Hospital.

Mrs. Blacklock was riding with her husband, whose car collided with one driven by J. B. Lawver of Palo Alto, who is visiting friends here. There were several persons in the lawyer car, but they were not injured. Blacklock was not seriously hurt. The body of Mrs. Blacklock was taken to the morgue of W. A. Brown, Los Angeles.

GAS FUMES FATAL.
Mrs. H. P. Gaylord was found dead at her home, 765 North E. Molino avenue, by her husband this morning. She had been asphyxiated, the cause being believed to be a fit of dependency she ended her own life.

DECORATIONS DAMAGED.
All the decorations on the streets for the Rose Tournament tomorrow are in place and got a severe wetting in the rainstorm today. Over the line of parade march American flags are suspended across the streets, being hung alternately with flags in the red and black colors of Washington and Jefferson and the blue and gold of the University of California. Flags and banners are draped on the light poles along the sidewalks, alternate poles being festooned with white and light blue fronds.

MONDAY AS HOLIDAY.
Monday, Rose Tournament, will be generally observed as a holiday. All places of business, except restaurants, lunchrooms, candy stores and the like, which will serve the tournament crowds, will be closed. The postoffice will observe a holiday.

The hotels are filled with New Year's crowds. Unless rain interferes and cuts down the attendance, tomorrow's crowds here are expected to be the largest in the history of the Rose Tournament.

Ranches, average, home, H. L. Hayman, La Canada. (Adv.)

BOY DIES AS RESULT OF CRASH.

Auto Hits Truck Filled With Children on Way to New Year Party.

(LOCAL CORRESPONDENCE.)
ONTARIO, Jan. 1.—Albert Correll, 9-year-old La Verna boy is dead and seven others were painfully injured here this afternoon when a truck driven by J. Rodriguez of La Verne and carrying a party of children to New Year's exercises at a local Mexican mission was struck at Twelfth street and Mountain avenue by a touring car driven by Oliver Granger of Hawthorne.

The truck was proceeding east on Twelfth street and was struck broadside by the touring car which was going south on Mountain. The Correll boy's unknown to officers in the impact and the other children were hurled to the pavement. All the children were taken to the San Antonio hospital where the Correll died an hour later. None of the others were seriously hurt.

In the touring car with Granger were his wife, John Mastian of 1532 Ingraham street, Los Angeles, William Powell, 111 West Fourteenth street, Los Angeles, and two other women. The party was returning from a visit to San Antonio Canyon and the driver failed in the rain to see the truck in time to stop on the wet pavement.

None of those in the touring car was injured. The injured Correll boy's body will be held tomorrow morning at Draper's mortuary, Ontario.

PIONEERS CELEBRATE GOLDEN WEDDING DAY.

VENERABLE COUPLES AT REDLANDS ENJOY FIFTY YEARS OF WEDLOCK.

(SPECIAL CORRESPONDENCE.)
REDLANDS, Jan. 1.—Two of the pioneer couples of Redlands have quietly celebrated their fiftieth wedding anniversaries in the past few days. They are Mr. and Mrs. Marshall Rugg and Mr. and Mrs. E. S. Foote.

Mr. and Mrs. Foote celebrated their anniversary quietly at their home on Cajon street, where they have an orange grove. Their children, Mrs. Inez Pratt, Los Angeles; Mrs. Rose Marti, Long Beach; Mrs. Irma Heacock of Redlands were with them for the celebration.

DEDICATE HOUSE OF WORSHIP.

New Religious Temple Open to Congregation at Sierra Madre.

(LOCAL CORRESPONDENCE.)
SIERRA MADRE, Jan. 1.—The congregation of Bethany Temple, which consists of members of eight different Christian denominations, dedicated their new temple of worship here today. The service will continue over tomorrow concluding with a general thanksgiving service Monday at 7:30 p.m.

The service, today, included three sessions, which were largely attended by both members of the congregation and many out-of-town visitors. Ministers of several denominations participated. Music incident to the programs was a special feature.

The sermons of the day were delivered by Rev. George Davis, Rev. Frederick M. Farr, D. D., and Rev. French E. Oliver, D. D.

Bethany Temple is unique among the houses of worship in Southern California. It is not only an interdenominational house of worship, but has been built by enthusiastic members of the congregation. Stone in the structure was gathered from nearby hillsides and material for the bricks was taken from the property of the congregation adjoining the church.

The work has been under the direct supervision of Rev. W. H. Rawlins, "L. D. who is the pastor. Dr. Rawlins came to California a few years ago because of failing health and has devoted himself to the service of the church since that time.

The minister has traveled extensively and held important pulpits before coming here from England.

POSTMASTER DIES.

Official at Riverside Passes Away After Short Illness.

(LOCAL CORRESPONDENCE.)
RIVERSIDE, Jan. 1.—Postmaster K. D. Harger died at 3:30 a.m. today after an illness of but a few days duration. Mr. Harger, who was 51 years of age, had been a sufferer from kidney trouble for some time, but his recent illness was not regarded as serious.

Mr. Harger came to Riverside county from Chicago in 1894, settling at Marino. He removed to this city in 1904. For twenty years he was prominent in the councils of the Democratic party, serving as chairman of the Democratic County Central Committee much of that time.

Before receiving his postmaster's commission in February, 1915, he was attorney for the Riverside Abstract Company. He was a member of the bar and prominent in the First Congregational Church.

Besides the widow, he is survived by his mother, Mrs. Phoebe Parker, and two sons, Donald K. Harger, a student at Earl's Junior in the Riverside High School. The funeral will be held from Simond's undertaking parlors at 3 o'clock Tuesday afternoon. Dr. John Gardner of the First Congregational Church officiating.

DIES FROM INJURY.

DOWNED, Jan. 1.—W. H. Forten, one of the oldest and best-known ranchers of this section, died yesterday morning from injuries received when struck by an automobile Friday night.

Forten was returning from his brother's home along the Bellflower Downey Boulevard when he was run over by a fast moving car coming from the rear. The injured man stated that the car was running without lights and was struck at great speed. The driver did not stop to ascertain the extent of the injuries inflicted and his brother's home was struck.

Forten was about 60 years of age and has resided in this community for more than forty years.

INLAND STEEL MILLS RESUME OPERATIONS.

(LOCAL CORRESPONDENCE.)
HAMMOND (Ind.) Jan. 1.—The steel mills of the Inland Steel Company which have been shut down since December 23, resumed operations tonight.

Another announcement stated the mill would be returned to operation Monday morning, January 23. The sheet department, which has been running at capacity for the last three months, was shut down this week for cleaning, but will again be returned to full operation the first of the year.

Attention of church-goers was attracted by propaganda placards hung last night on the walls of the ruined postoffice and in other parts of Dublin. One was a duplicate of the notice published

NEW GUSHER IN AT LONG BEACH.

Seventh Success in Field on Signal Hill.

City Fireman Wins in Long Fight for Life.

Aged Man Faces Charge of Embezzlement.

(LOCAL CORRESPONDENCE.)
LONG BEACH, Jan. 1.—Shell Alamitos No. 3 came in on Signal Hill today, making the seventh hole in the new field to flow. The new well is gushing by heads, an estimate of its capacity got being available as yet. Operations for placing the well on a production test are expected to be completed Monday.

The well had been drilled to a depth of 3382 feet. It is located about 350 feet directly east of the Shell Alamitos No. 1, the first well brought in on Signal Hill.

With a total investment of approximately \$5,000,000 to date, the oil industry, which is regarded as the most important of this city's varied sources of occupation.

There are now seventy-five wells in various stages of development, the majority of them either drilling or rigging, although the field is but a few months old. The pay roll amounts to about \$300,000 a month.

Of the seventy-five wells, or expected wells the Shell Company of California has twenty-two. The proven oil land on the hill to date is about 180 acres in extent, although the latest developments reveal a potentiality that covers thousands of acres.

Western, northern and eastern development of the field during the past three months has opened up land as oil territory that was hitherto considered a bad gamble at best.

The producing wells thus far have ranged in size from 200 to 3000 barrels per day. The field now has one commercial gas well, the Shell Wilbur No. 1, which came in last month and burned the derrick and machinery with a loss of \$35,000. The gas well is producing an estimated 7,000,000 cubic feet of gas per day.

WINS FIGHT FOR LIFE.

Believed dead when picked up, lying unconscious for seventeen days and suffering between life and death for months, George Wright, city fireman who was injured in the automobile accident five years ago which cost Fire Chief Joseph E. Shrevebury his life, has fought his way back to health and today was pronounced well enough to return to his work.

When Wright was taken from the wreckage of the chemical machine in which he was riding with George C. Crow, now Chief of the department, but then Assistant Chief, he was considered dead. For seventeen days he was unconscious and for three months after he recovered consciousness he was paralyzed. His life was considered at best, during the first two years of his disability, to be merely a matter of weeks.

CHARGE EMBEZZLEMENT.

Charged with embezzlement of \$2000 in Liberty bonds and \$700 in cash from Joseph Forten, 30 years old, Bailey Poles, 71 years old, retired farmer residing at 328 Termino avenue, was arrested yesterday by Detectives Ralph Alyea and L. P. Gott.

According to the complaint, Forten and his brother-in-law, D. R. Forten, induced Forten to give them the money to start a drug store, in which he was to have interest and share in the profits. They secured the money while he was in a hospital near a year ago, Forten alleges. Forten charges the defendant made no attempt to open the store and purchased an automobile shortly after getting the money from him. Pending his hearing before Justice S. H. Underwood, Forten was released on \$3000 bail.

NEW YORK BANKER COMMITS SUICIDE.

(LOCAL CORRESPONDENCE.)
NEW YORK, Jan. 1.—George W. Taylor, said to be an attaché of the banking house of J. P. Morgan and Company, killed himself early today at a New Year's party in the home of his sister-in-law, Mrs. Clinton Smith, at East Orange, by shooting himself in the head.

Taylor was 37 years old. He resided next to the scene of the party taken as a reminder to the public that the Republican government is still functioning.

Another power road: "Ratify the treaty and save the empire." The sources from which the placards came are not revealed.

EXPECT AMERICANS.

The Associated Press was informed today that inquiries are being received by Irish land agents from wealthy Irish-Americans regarding the possible purchase of large estates in Ireland. One of the landed gentry left Ireland during the last year, putting up their estates for sale. In many cases these estates are expected to pass into the hands of Americans who, anticipating a return to normal are said to desire to return to the land of their birth.

Ask Bids for Tunnel Under Hudson River.

(EXCLUSIVE DISPATCH.)
NEW YORK, Jan. 1.—All the plans, forms of contracts and specifications for constructing a great vehicular tunnel under the Hudson river have been agreed upon by the New York and New Jersey commissions. Bids will be opened February 7, ground will be broken early in March and the time limit for the completion of the work is December 31, 1923.

WILL SHOW MOTION PICTURES OF PARK.

Wonderful Views of Yosemite to Be Seen at National Capitol.

(EXCLUSIVE DISPATCH.)
WASHINGTON, Jan. 1.—Wonderful motion pictures showing water cascades on nest and wild flowers opening and actually growing in Yosemite National Park, California, as well as scenes of the high Sierras, including the climbing Mount Lyall, altitude 13,099 feet, high members of the Museum Auditorium by Arthur C. Pillsbury of Yosemite National Park, in connection with the regular annual meeting of the Biological Society of Washington.

PRESIDENT OF OIL COMPANY ARRESTED.

Belmont Held on Request of Obtaining Money by False Pretenses.

(EXCLUSIVE DISPATCH.)
CHICAGO, Jan. 1.—J. R. Belmont, said to be the president of the Belmont Petroleum Company and with offices in Tulsa, Okla., and Dallas, Tex., and Philip Orm, Niles, Mich., were arrested in the Congress Hotel last night by Sergeant John Egan of the detective bureau. Belmont was arrested at the request of the Hot Springs (Ark.) authorities on a charge of obtaining money under false pretenses.

Mrs. Elsie Tuck, wife of a Joplin manufacturer, was with the two men. The police believe she was negotiating the purchase of oil stock from Belmont. She was not taken into custody.

FORMER FINNISH PREMIER IS HELD.

(EXCLUSIVE DISPATCH.)
PITTSBURGH (Mass.) Jan. 1.—Oskar I. Tokok former Premier of Finland, was arrested last night on a Federal warrant, charging him with being an alien anarchist and an undesirable citizen. He was held without bail pending an investigation.

Tokok said he was at a loss to understand the action of the Federal authorities. He declared he was a colonel in the Finnish legion, which fought with the British forces against Germany and that he was in the United States with the knowledge and consent of the immigration authorities.

Police found a passport from England and a permit to enter the United States issued at Saint St. Marie, Mich., among his personal effects.

SENATOR IN HOSPITAL.

PITTSBURGH, Jan. 1.—It became known tonight that Senator William E. Crow was brought to a hospital here yesterday from his home at Washington and his stay would be brief.

Peacock Shoes

for women & girls

Reduced for January

We are determined to introduce "Peacock Shoes" to all women and girls of Los Angeles. So have reduced the original close-margin prices still lower to compel your attention to this—Newest Store—Newest Styles—New Prices—New Service.

At this extreme low price—

- Black Satin Slippers
- Cloth-of-silver Slippers
- Suede or Patent Slippers
- Beaded Satin Slippers
- Brown Kid or Calf Oxfords
- Black Kid or Calf Oxfords
- Patent (fancy trimmed) Oxfords
- Patent Plain Toe Oxfords

"Step proudly in Peacock Shoes"

YOU CAN BEAUTIFY YOUR HOME NOW, WITHOUT A GREAT EXPENDITURE THIS WEEK ONLY!

Come to the Rudin Furniture Manufacturing Company, at 711 West Jefferson Street, pick out the velvet or tapestry you want from several offered in this big special and I will make it up for you in a big comfy, roomy overstuffed davenport—the sort that graces the homes of aristocracy for only

\$57.50

And You Can Match It in a Rocker or Chair at **\$31.00**

These are duplicates of the fine furniture upon which my reputation has been built.

SEEK TO FREE MAN FROM JAIL.

Governor is Asked to Pardon Husband of Los Angeles Woman.

(SPECIAL DISPATCH.)

SACRAMENTO, Jan. 1.—Six

years ago, David F. Douglas, alias

Warren Douglas, then a youth of

17 years, arrived in Los Angeles

from New York, determined to

lead a free and easy life in sun-

ny California. Shortly after his

arrival he met a beautiful girl

of a pioneer Los Angeles family,

and representing himself to be

wealthy, after a hasty courtship,

married her.

The young woman, now 33 years

of age, is patiently waiting in Los

Angeles for the return of her

husband, who she believes is in

prison, and is waiting for him to

return to her.

At least that is the story told by

her, and her father, Charles

Douglas, prominent New York in-

surance man, in letters to Gov.

Stephens, asking for the boy's

liberty. The maiden name of the

girl is not given in the papers.

Justices of the State Supreme

Court have recommended to the

Governor that Douglas either be

granted a pardon or commutation

of sentence and several financial

men, Congressmen and business

men of New York, have appeared

in the young man's behalf. One

large insurance company has of-

fered to give him a position if

he is released.

According to the records on file

with the Governor, Douglas and

his young bride, after their mar-

riage in Los Angeles, moved to

San Francisco where he got work

in a large jewelry store. Here he

stole quantities of jewelry from

the firm and with his bride went

to Boston. To keep up the ap-

pearance of big wealth, Douglas

made a bid on the First

National Bank there. He was ar-

rested by the Federal authorities

at Miami, Fla.

He was returned to Boston, where

he pleaded guilty in the Federal

Court and was sentenced to ten

years in Leavenworth prison. In

1920, after serving four years,

Douglas's sentence was com-

muted by President Wilson.

Upon being released from the

Federal prison, Douglas was re-

turned to San Francisco to an-

nounce the grant of leniency, but

he pleaded guilty and was sen-

tenced in February, 1921, to two

and a half years in San Quentin.

NEW YEAR'S CELEBRANT IS KILLED.

Well-Known Salido Man

Broke Into Hotel Room at

Riverbank.

(BY A. P. NIGHT WIRE.)

MODESTO, Jan. 1.—Sheridan

Gaffney, a well-known citizen of

Salido, was shot and killed at

Riverbank, eight miles from here,

early today after he had broken

into the rooms of three guests, one

of them a woman, in a Riverbank

hotel and had marched them in a

body to his automobile in the

street.

Deputy Sheriff J. C. Hayes, who

shot Gaffney, had been called to

the automobile by a boy who ac-

cused from Gaffney, while he was

making the victims get into his

automobile.

Gaffney, who, according to wit-

BILL WOULD HIT PAPERS, CONTENTION

Antilobby Measure Blow to Freedom of Press; Little Chance of Passage.

(SPECIAL DISPATCH.)

WASHINGTON, Jan. 1.—So

much opposition has been man-

ifested in and out of the Senate to

the Hays antilobby bill passed by

the House with an eleven-hour

amendment introduced by

Representative Walsh of

Massachusetts which is generally

regarded as a drastic interference

with the freedom of the press

that there is little if any chance of

its passage by the Senate in its

present form.

Hearings were held December 9

and 10 and will be resumed Janu-

ary 10 before the Senate Judiciary

Committee when representatives of

newspapers will be heard. Senators

McClure and Stanley having re-

sisted the attempt of Dr. Wilbur

Crafts of the International Reform

Bureau to have the hearing closed

and the bill reported without giv-

ing the other side a chance to

present its case.

Opposition to the measure is

based principally on the paragraph

which would bar from the mails

newspapers, circulars, letters, cir-

culars or other written or printed

matter "containing information or

statements, by way of advice or

suggestions, purporting to give

the odds at which bets or wagers

are being laid or waged upon the

outcome or result of any horse

race, prize fight or other contest

of speed, strength or skill, or set-

ting forth the bets or wagers made,

or offered to be made, or the sum

of money won or lost upon the

outcome or result of said contests

by reason of such bets or wagers,

or which sets forth suggestions as

to the odds at which bets or wagers

should or may be made or laid."

Even the advocates of the mea-

sure were divided in their views as

to whether the paragraph in ques-

tion applied to news as well as ad-

vertisements and might prevent

the publication of results of

contests, though they insisted it was

desired only to prevent publication

of tips and podvices encouraging

gambling on races and other con-

tests including baseball and foot-

ball games.

MOTHERS AND SONS.

Not long ago, in a western courtroom, a boy of 17 was brought before the judge on a charge of larceny. It was his third offense, and the judge, who had been lenient twice before because of the prisoner's youth, was prepared to impose a heavy sentence. But suddenly a gentle little woman rose before him.

THE ONE TO BLAME.

"Judge," she said, "this prisoner is my son. What he has done is absolutely my fault as if I had done it myself. I have spoiled him all his life. He has never had from me the training he needed. It is not right that he should be punished for my sin toward him. Let me take him home and see what I can do for him now. I will report to you every week—and if he fails again I myself will pay the penalty, since I alone am guilty."

The judge put the boy in her care. I hope the newspapers will keep us informed of the progress of the case, for it is deeply human and moving. But we need not wait for the trial to read the tragic lesson in it.

WHAT THE YEARS BRING.

Whatever the degree of that mother's guilt, she was right in claiming that the woman who spoils her son is largely responsible for his later actions.

Yet all around us, everywhere we look, we see women spoiling their sons—and their daughters, too—by over-indulgence, and by lack of guidance and discipline. In one of the most flagrant instances I know of, the mother of a son of eleven, who is already the infant terrible of his neighborhood, made this feeble defense of her attitude:

"I simply cannot punish him," she said. "I feel that his childhood must be happy. How do I know what tragedies will come into his later life—which I cannot prevent? But now I am his whole world. I can make him happy, and whatever anyone says, I am going to do it!"

In other words, she makes him happy by letting him run at large, exactly as he chooses, bully his playmates, work mischief wherever he can, and be already a small outlaw in his community. With this start it does not require much acumen to predict what will follow. An undisciplined, unhappy, valueless life, which, even if it remains free from crime, must also remain free from friendship, fellowship and love. For there are few instances indeed in which a spoiled child develops into a lovable man or woman and a worth-while citizen.

THE ONE WHO PAYS.

Why women, otherwise intelligent, fail to grasp this fact, why they fail to see that they are wrecking the lives of the children they spoil, is one of the surprising things in a surprising world. The little western woman in her clear after-dinner, stands almost alone. Even in the infancy of the spoiled ones, mothers have only to open their eyes to see the penalty the child is already beginning to pay. Other children don't like a spoiled child. They don't enjoy playing with a spoiled child. They keep away from it as much as they can.

some 3,500,000 ex-soldiers, who saw no actual service and who are eminently able to provide for themselves. There are a few many upright, many ex-soldiers. But these are never heard grivelling about hardships past, nor clamoring for a donation from the government to help them in the future. They are working and helping themselves as some 40,000,000 other men and women of the United States are doing. I am pleased to number two ex-service men and their wives with my friends. Both of these men were wounded at the front, yet neither of them believe it would be fair to the American people to grant a bonus to ex-soldiers as able to work as half the men now doing the world's work. One of their own number stated in my presence that some of the ex-soldiers receiving vocational training had nothing the matter with them—not even corns. And I will wager that many of them could pass physical examinations for life insurance. Since they have vocational training with a monthly allowance of \$100 to \$115 a month, every month in the year including all vacations, they should appreciate it enough to apply themselves to their studies, treat their fellow-men and women with respect, and be men instead of howling against the government for not giving them a bonus. I think our ex-soldiers have been treated remarkably well, and I find that most of the business and professional people of my acquaintance believe as I do.

LOS ANGELES, Dec. 31.—[To the Editor of The Times:] In your paper recently you ask "What Was It His Heart?" Here is my answer.

Heart's heart England. In order to hit at England he has to profess love for Ireland; he cannot help himself; and so he sings Ireland's praises to vent his spleen on England. He hates France; but if needs be he will sing of glorious, liberty-loving France if so he can use that as a club to land on England with, because his hatred of France is nothing compared to his hatred of England. He can twist any subject under the sun, from Ford to education, into a weapon to use against England. He has thrown truth, honesty, integrity, decency, into the discard in his mad zeal to infect this country with the poison of his hatred toward England.

But amid all this Hearst's with which this country is afflicted William has never swerved one tiny bit from his loyalty to his true fatherland, Prussia. Has one unkind word about the Allies' late foe been spilled from his lips? No, not even his hatred of England can overcome his love of fatherland. He is the true patriot. I see by today's Examiner that the "people," those "upstanding Americans" those that are left of them, are advised to spurn the

Scrap the doctrine, scrap the peace, scrap the poisonous opinions, and get back to "the faith once delivered unto the saints." Is that what we need for real peace among men?

Why not hold a religious disarmament conference of opposing Christian sects? Ought it to be done? Can it be done? Yes, in God's sight it ought, and by Him can, and will be done by God in His time without even consulting us. For He will have a church without a dissenting opinion, as pure as Christ's first Church at Pentecost. But why not have the privilege of taking part in it now?

If the burden of worldly armaments is growing intolerable, is not the burden of sect doctrines also? For as sure as war breeds wars, so do sects breed sects. Shall we have, "O Lord, one faith"—God's way, or shall we have hundreds of foreign faiths and doctrines—man's way?

ALHAMBRA, Dec. 31.—[To the Editor of The Times:] Regarding the article in Sunday's paper on "How to Test Your Mentality," will you allow me to express an opinion.

When we fill a stove with wood and coal, is it for the purpose of getting that same wood and coal out of the stove at will? Of course not, and yet the writer of the article on "How to Test Your Mentality" expects the human brain, which is the most wonderful generating system known to man, to give forth mere facts just in the same form in which they were received, when a gramophone can do the same!

It is all very well to iterate facts, but in addition the personality should also be able to give the fruit of those facts, as a stove radiates heat as the result of the fuel it has received. What has been digested and absorbed is a truer standard of mentality than what has been merely jammed into the brain.

The writer of Sunday's article makes no provision or allowance for inventors or originators, who might even fall below what he is pleased to call the "14-year-old class," so absorbed are they with their particular interest or invention which may some day prove a blessing to humanity. How could Mr. Edison stand the "test" I wonder!

Does as much hinge upon "The Distance of the Moon," as on how to be a bread-winner, or home-maker? Of knowing "who took out the first patents on gasoline automobiles," as in applying the knowledge of gasoline and machinery in a way to minimize the risk to human life on our streets? If answering correctly the questions named in the "test" criterion of one's "mentality" then I move that we strive for good common sense as affected against such a United States.

The historian Bancroft said a re-

WHY SON! YOU SEEM TROUBLED! WHAT'S THE MATTER?

I'M BORED TO DEATH! NOTHING ABOUT, NOTHING!

Disarmament of Sects. LOS ANGELES, Dec. 31.—[To the Editor of The Times:] Christendom is more in need of disarmament of its dangerous sect doctrines than they world of its weapons of destruction of human life. For sectarian doctrines are as sure to poison the heart and kill the soul as poison gas does.

Those who say, "It can't be done, it will surely fail," are greater enemies to the peace of Christendom than those now crying against disarmament of nations. These pessimists are the real obstacles to the harmonious of humanity.

Is there not a more real foundation for the unity of Christendom faith than there is for world peace? Is it not a fact that all Christendom once stood a single unit on the foundation of the faith once delivered unto the saints? Is it not true that we now have hundreds of dangerous quarrelling religious factions menacing the peace of the world more than any other warring factions?

Scrap the doctrine, scrap the peace, scrap the poisonous opinions, and get back to "the faith once delivered unto the saints." Is that what we need for real peace among men?

Why not hold a religious disarmament conference of opposing Christian sects? Ought it to be done? Can it be done? Yes, in God's sight it ought, and by Him can, and will be done by God in His time without even consulting us. For He will have a church without a dissenting opinion, as pure as Christ's first Church at Pentecost. But why not have the privilege of taking part in it now?

If the burden of worldly armaments is growing intolerable, is not the burden of sect doctrines also? For as sure as war breeds wars, so do sects breed sects. Shall we have, "O Lord, one faith"—God's way, or shall we have hundreds of foreign faiths and doctrines—man's way?

ALHAMBRA, Dec. 31.—[To the Editor of The Times:] Regarding the article in Sunday's paper on "How to Test Your Mentality," will you allow me to express an opinion.

When we fill a stove with wood and coal, is it for the purpose of getting that same wood and coal out of the stove at will? Of course not, and yet the writer of the article on "How to Test Your Mentality" expects the human brain, which is the most wonderful generating system known to man, to give forth mere facts just in the same form in which they were received, when a gramophone can do the same!

It is all very well to iterate facts, but in addition the personality should also be able to give the fruit of those facts, as a stove radiates heat as the result of the fuel it has received. What has been digested and absorbed is a truer standard of mentality than what has been merely jammed into the brain.

The writer of Sunday's article makes no provision or allowance for inventors or originators, who might even fall below what he is pleased to call the "14-year-old class," so absorbed are they with their particular interest or invention which may some day prove a blessing to humanity. How could Mr. Edison stand the "test" I wonder!

Does as much hinge upon "The Distance of the Moon," as on how to be a bread-winner, or home-maker? Of knowing "who took out the first patents on gasoline automobiles," as in applying the knowledge of gasoline and machinery in a way to minimize the risk to human life on our streets? If answering correctly the questions named in the "test" criterion of one's "mentality" then I move that we strive for good common sense as affected against such a United States.

The historian Bancroft said a re-

public thrives best in a vast area. A United States that included Great Britain, Canada, Australia, etc., would fill the bill.

Such a Little Job. GLENDALE, Dec. 31.—[To the Editor of The Times:] The Los Angeles bridge has been closed since the last heavy rain of the recent damp spell. The river came along and undermined a few of the wooden supports. The diligent authorities put signs on the highway and shut it up tight. We, who live in Glendale, roam around the country, trying to get to Hollywood. A small boy with a tack hammer and a child's spade could go down there in the mud and fix the piles in ten minutes. But the solemn authorities in Los Angeles go away for seven weeks, leaving their pretty signs on the highway. Los Angeles needs a new department. In New York, if this happened, a gang of husky wops would go out of an afternoon and traffic would be rolling merrily along in its wonted course before dusk. This is the difference between a regular city and a city suffering from the adolescent pimpler of immaturity.

GEORGE HUBBMAN.

Questions Answered. (Last reader can get the answer to any question by writing the Los Angeles Times, 1000 Broadway, New York, N. Y. The editor will be glad to answer questions on all subjects except legal, medical and financial matters. It does not accept of any money for questions, but will send a copy of the paper to any reader who sends a copy of the paper to the editor. All replies are sent direct to the inquirer.)

Question: What language did Pennsylvania Dutch come from? O. E. B.

Answer: The tidom of the Pennsylvania Dutch is really High German. It is a fusion of Franconian, Alsatian and other German dialects, with an admixture of English varying from 1 per cent in rural districts to a large percentage in towns.

Q: What are the two most famous Egyptian statues in the round, and who are the sculptors? I. E. B. W.

A: A member of the National Museum staff says: "Options differ. In my judgment the seated stone statue of Cleopatra, the

builder of the second pyramid of Gizeh, and the wooden standing statue of the so-called "Holk of Balad" are the masterpieces of Egyptian sculpture. No Egyptian artist is known by name."

Q: What is a man of straw? F. M. H.

A: A professional sales witness in the English courts who gives straw bail. They wear, or are said to wear, straw in their shoes as a sign of their profession.

Q: Who was H. H. H. A. G. H. H. was the pseudonym of Helen Maria Fiske who was Mrs. Hunt and afterward Mrs. Jackson.

Q: Who painted the "Descent from the Cross"? T. F.

A: This has been a favorite theme with artists and there are at least six famous pictures of this name, by Baldoni, Gerard, David, Cavasola, Correggio, Titian and Rubens.

Q: Can you give a recipe for Spanish hummer? P. E. B.

A: These Spanish cakes are popular during the holiday season and at weddings. To three cups of flour, one-half teaspoonful of salt, add enough milk to mix. Knead as you would bread, roll out and cut in disks about the size

of a small plate. Fry in time in deep fat, and served with syrup made of and water.

Q: When was the encyclopedia Britannica first published? F. M. H.

A: This "dictionary of sciences and general facts" was first published, in Edinburgh, 1768-1771.

Q: Is it true that men die during fogs that weather is clear? F. M. H.

A: It is said that in the deaths during foggy weather exceed the number of deaths during clear weather.

Q: What is a treasuri? T. F.

A: A treasuri is a large pin used in fastening plaques of a vessel to its or to each other.

Q: Did England or not recognize the South beginning of the Civil War? F. M. H.

A: England held a matter of neutrality in 1861, by which action she refused to supply the Confederates with arms. This action was part of Great Britain's policy afterwards followed by European countries.

And Now King Cotton Takes a Hand in The January Garment Clearance

and Sets Some Prices That Will Make the Most Interesting Sort of Reading

—No woman with new clothes to buy will want to miss this sale. King
Cotton has gone into the January Garment Clearance wholeheartedly
and the savings he decrees are half—close to half—and in ever and
ever so many cases, even more than half!
—The importance of this event cannot be overstated! Every coat, suit
and dress in our stocks, excepting the new Spring models, is reduced
ever so drastically.

—Styles, colors, materials—we could fill the whole page with details and
still hardly begin to tell the story—or half of it.
—See the windows and remember that they merely give a hint of the
reels and reels of great Savings in the Garment Section.
—Our own regular stocks and quite a few special buys from manufac-
turers with stocks to clear—King Cotton went through them all and
made reductions that will create a sensation, Tuesday.

All Our SUITS are exactly HALF PRICE!

- Prices begin at \$17.49 for the suits that were \$34.98 and go to \$27.49 for the ones that were \$54.98.
- And here are some brief hints of what you will find in the way of Coats and Dresses.
- 111 Coats at \$24.98.
- 97 Coats at \$29.48.
- 125 Coats at \$34.98.
- 89 Coats at \$39.48.
- 56 Coats at \$44.98.
- 121 Coats at \$49.98.
- 117 Coats at \$54.00.
- 43 Coats at \$59.00.
- 58 Coats at \$64.00.
- 82 Coats at \$69.00.
- 19 Coats at \$74.00.
- 87 Coats at \$79.00.

King Cotton himself is amazed at
250 TRIMMED HATS \$4.98
—And such pretty hats as they are. Not at all the kind you'd ever
expect to find at \$4.98, but in much higher priced lines.
—The styles are ever so smart and new. Just what the women are
wearing now. The materials and workmanship are of the best.
—Just 250 of them at \$4.98.
Third Floor, North—Jacoby's

"Real Mahogany!"
Floor Lamps \$11.98
Exclaimed King Cotton
—Yes, indeed, they ARE real mahogany, unusually
well made, too, and with a mirrorlike polish!
—And, then there's a metal pipe which carries the
lighting cord the entire length of the lamp.
—Both the 54-in. and 60-in. sizes.
**60-in. Polychrome
Floor Lamps \$9.98**
—King Cotton is keenly enthused over these.
—They are gold finished and have a heavy base of
massive design. Fluting decoration, which is tinted by
hand in rose, bronze and blue.
—They have 2-light fixtures of best brass.
South Basement—Jacoby's

"Worth a Lot More!"
Said King Cotton
25 Silk Shades \$11.98
—Clever new shapes and in the popular 24-in. and
26-in. sizes.
—In blue, rose and gold, trimmed with Oriental pat-
terned silks, gold braid and silk fringe.
22-in. Shades \$6.98
—The right size for Junior standards or the large
table lamps.
—Made of alternate panels of plain and oriental pat-
terned silks and trimmed with fringe and gold braid.
—Very special at \$6.98.
South Basement—Jacoby's

In the Basement King Cotton Sells Coats and Dresses \$15.00

—Seeing those displayed in the windows will bring many a woman
down all ready to buy one or more the minute there's an opportunity!
—The dresses at \$15.00 are effectively beaded and embroidered and
materials include tricotine, Poirer twill and canton crepe. All sizes
when the sale starts.
—The coats at \$15.00 are of wool velours, mixtures and novelty coat-
ings in brown and navy. All sizes in the lot.

**250 Coats and Dresses
Absurdly Low, at \$19.98**
—"What a pity you can't send a peep at the coats and
frocks along with your 'ad.'" said King Cotton.
—The high-grade materials and smart styles show that they
were made to sell for ever and ever so much more.

King Cotton Offers
**A New Nemo Corset
at \$4.00**
—This is indeed a chance no
stout woman should overlook.
—The lowest price these fa-
mous corsets have been in
years. The quality of material
and workmanship has not
been lowered.
—No. 44—Low top; medium
skirt. Strong white coutil;
size 34 to 38.
A Further Opportunity

Home pattern.

ing of Westphalia and the Albanians are not averse to this stock. They have three commissioners out looking for kingly material and several conferences are said to have been held with the New Yorker concerning his qualifications for the throne. He is a middle-aged business man of some fortune and an ambitious wife, to whom he was wedded in 1914. We can at least supply the world with queens, even if our kings are not satisfactory.

SHAVED HEADS AND AGE.
Another doctor arises to remark that there is no reason why people should not live to the age of 120 to 140 years. If they will dwell much in the open and go bareheaded and bare-footed it is easily possible to hang on to this world for a couple of centuries. But who wants to run around the world in his bare feet for a hundred centuries? What would have become of the doctor's family if everybody had gone bareheaded for the last thousand years? What harm is there in plodding up and down the universe for a century or so and then croaking from a stone-bruise? Imagine what the daily pageant in Broadway would look like if everybody had their heads and toeses shaved!

When a woman was injured by a fall on an exposed gas pipe, the wife received damages for her personal injury, but the husband was allowed by the court to collect the amount awarded as the loss of her services at the home.

According to the report from Florida the women of that State are under the domination of the old English common law to a greater extent than perhaps in any other State in the Union. According to the common law a married woman "could make no contract of any kind." This, the report says, is true in Florida today with a few exceptions. Unless her husband has been adjudged incompetent and has been appointed a guardian, a woman married without a consent, rent, mortgage or sell even her property, she is entitled to her share of the

POINTED PARAGRAPHS.
And the bottom of a cup of joy is seldom
from the top.
Falling in love doesn't lower an egotist's
station of himself.
A woman never forgives a man for
forcing her for not forgiving him.
It is frequently easier to be sure you are
right than it is to go ahead.
Our idea of a smart baby is one that does
sleeping during the night.
There's one good thing about rainbow gold
we can't lose it buying blue sky.
Some men are afraid to marry because they
are afraid that they might acquire the habit.
It's an easy matter to interest a lawyer in
our trouble—if you have the price.
An average woman can get more real
 enjoyment out of a funeral than a man can
out of his own wedding.—[Chicago]

The throne of Albania is vacant. It has been so since William of Wied, a German monarch, fled to Switzerland at the beginning of the world war. Here is a chance for a young man to get a job.

ected on the forest floor, but later on, when the trees have attained their full leafage, little light filters through. And light is required for a carrying on of the work of food elaboration by the leaves, so that the forest plants send up their leaves into the spring sunshine, manufacture food and store it in underground structures, such as tubers, corns and rootstocks, so that they are ready for an early start

learned.
But at the worst he's
rough.
And money wouldn't buy him
That bird's the same in
rain;
He never tires or tries
Just keeps it going all day
Sits over on the water
And sings, the while he
work!

TO SHOW ITALY CANVASES HERE.
 Masterpieces Reproduced by Efforts of Woman.
 Will be Placed on View at Exposition Park Hall.
 Supervisors Aid; Hope City Can Keep Collection.

BY EDITH JAMESON LOWE.
 An exhibition of fifty-four reproductions of Italian masterpieces from the collection of Mrs. Agnes Burrell Nation will be opened Wednesday at Exposition Park Museum of History, Science and Art. Mrs. Nation's entire collection comprises 114 canvases and covers a period of approximately 400 years of Italian art, from the latter part of the fourteenth century to the end of the eighteenth. The entire collection will be shown at the Exposition Park art gallery, but the size of the room prohibits the hanging of more than fifty-four at the present time. In bringing to Los Angeles her collection of reproductions of Italian masterpieces, Mrs. Nation has given to residents and visitors an opportunity of viewing canvases which E. B. Vedder, the veteran American painter who has resided in Rome for fifty years, declared

Mrs. Agnes Burrell Nation.

that on seeing them side by side, only an expert would be able to distinguish from the originals.

STUDIED ABROAD.
 For many years a pupil of the late William M. Chase in New York Mrs. Nation continued her studies in Paris, Munich and Dresden. In this way she became familiar with the best in art in Europe. Always a firm believer in the verity of the principles of art which found their greatest exponents in the Italian giants, Michelangelo and Raphael, and realizing that the wonders of the Italian art galleries are entirely lost to all of her countrymen except the comparatively few students who go abroad to study and the tourists who hastily trot through countless galleries, Mrs. Nation conceived the idea of bringing a loan-exhibition of original masterpieces to the United States. She was informed that this project could never be brought about. The authorities would never under any circumstances allow their priceless treasures to be taken out of the country.

GIVES LIFE TO WORK.
 Mrs. Nation knew that Germany, France and Russia had failed in efforts to get collections of reproductions for their galleries. She made her great resolution to devote her private fortune to the work of creating a representative collection of reproductions of Italian masterpieces. Her actual endeavor from the time of her conception of the idea extended over a period of fifteen years. While the war was at its height, she entirely supported thirty families of Italian artists.

As the collection represents the choicest works of the periods represented it was necessary to go from city to city to copy in churches, art galleries and old castles. Sometimes she was obliged to move an entire family as the artist could not be separated from his wife and children. She spared no trouble nor expense in order that she might bring about the best possible results.

Mr. Chase, who to within a short time of his death took classes abroad to study every summer, was keenly interested in the progress of the undertaking and advised Mrs. Nation to bring the collection to Los Angeles.

"Such collections of reproductions are needed everywhere in America," said Mr. Chase. "In California, and particularly in Los Angeles which is adapted by nature to a great artistic future, your work will be of unestimable benefit."

During the past eight years, Mrs. Nation's entire time has been devoted to one object: The successful culmination of her great project. With the exception of about ten examples of early Gothic art which she desires to acquire later on, the collection may now be regarded as a complete education in Italian art commencing with the early Florentine school represented by Fra Angelico and concluding with the works of Tiepolo.

Among the representative masters, reproductions of whose works will be viewed are: Fra Angelico, Benozzo Gozzoli, Crevelli, Ghirlandajo, Perugino, Giorgione, Fra Filippo Lippi, Filippino Lippi, Botticelli, Verrocchio, Lorenzo di Credi, Piero di Cosimo, Piero della Francesca, Melozzo di Forlì, Pintoricchio, Raphael, Fra Bartolomeo, Andrea del Sarto, Sodoma, Luca Signorelli, Palma Vecchio, Michelangelo, Bonafazio Veronese, Paolo Veronese, Tintoretto, Titian, Bronzino, Guido Reni, Domenichino and Tiepolo.

The supervisors appropriated the necessary funds to bring the collection from New York to Los Angeles, and it is their earnest wish that the citizens may find a way to keep it here. The late C. P. Townsley, director of the Otis Art Institute, was familiar with Mrs. Nation's work, and gave his unqualified indorsement to her collection. It was his hope that these reproductions might be permanently established in this city.

That one woman, alone and unaided, was able to bring a task of such proportions to a successful conclusion is indeed to say that she has done a great and noble work.

A HALF PRICE SALE of Obrikat-Meyer FURS

The tremendous and instant response to the opening announcements of this great sale proves conclusively that it is without doubt the most wonderful money-saving opportunity ever presented to the women of Southern California.

Never were such substantial reductions offered—never were such material savings possible. Every fur garment in our immense stock is included—at a reduction that is considerably more than ONE-HALF, when compared with last year's prices.

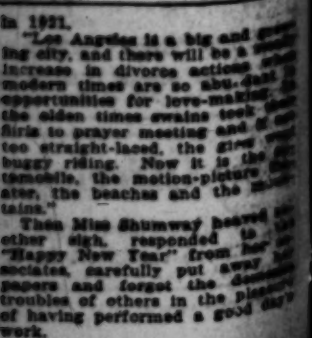

The acknowledged style-superiority and quality of Obrikat-Meyer furs enhance the value of the remarkable reductions now available.

"ONE O'CLOCK SATURDAYS"
Bullock's closes Saturday at one o'clock

And all we have to do is, our minister has put it, "I will do it."—(Columbus Dispatch.)

As Only a Woman Can Say It.—There were standing in front of a downtown department store. As one woman approached she spoke to the other. They evidently were friends, for they both had a look of surprise on their faces. There was a hint of chintiness or reserve in their bows.

The weather was rather bad and so she said to her friend, "I am in rather an apologetic tone." The weather was so bad today that I hated to wear my good coat."

"I am sure you are right," said the other, with a smile. "That's so dear. It's a very poor day to wear good clothes if you had them."—(Columbus Dispatch.)

—Tuesday—at Bullock's
Balcony Lesson Room.

TRIO TO START LONG SEA TRIP.

Will Leave Same Day That Yacht is Launched.

Veteran Mariner Plans Four-Year Study of Fish.

Wife and Champion Woman Athlete His Mate.

To launch a vessel and start out with it on the same day on a four-year cruise, is the plan of Capt. George Farnsworth, famous sportsman and Pacific Coast fish authority. The Gloucester schooner yacht Gipsy Girl, now on the way at a Wilmington ship yard, will be the vessel. With Capt. Farnsworth on his cruise will be Miss Farnsworth and Miss Coral M. Cave, champion horse-woman of Australia, swimmer, journalist and scenario writer.

The cruise will take the party to every corner of the Pacific and to the South Seas, where Capt. Farnsworth will make a study of the various species of fish in Pacific waters. He has devoted the past twenty-five years to this study and recently published a book, "The Cycle of the Fishes." He is also the inventor of the kite system by which tuna were first caught with hook and line and has lived and worked during the past fifteen years on Catalina Island.

TO SOLVE MYSTERY.
The four years of the cruise will be devoted, Capt. Farnsworth said, to locating the spawning grounds of the millions of fish that periodically visit Southern California waters and then disappear for twelve months.

"Naturalists have been unable to discover the spawning grounds of the tuna, albacore, skipjack, bonito, yellowtail, white sea bass, swordfish, and thousands of other species that every season visit Southern California waters," he said.

"I have built the Gipsy Girl with the intention of following the fish on their southern migration and staying with them until we discover their spawning grounds," he declared. "The time required will not be a factor."

"Making allowance for unexpected delays, we will be able to cover only Magdalena Bay and the Southern Mexican coast this season, but next year we expect to reach the South Sea Islands, Australia, New Zealand and other groups. The research work we expect to accomplish should prove of inestimable value to science, while the pleasure phase of the cruise will also be worth considering."

VETERAN OF THE SEAS.
Capt. Farnsworth was a sailor in the time of the old wind-jammers and both members of the party are also experienced mariners. Miss Cave, who has been making her home at Avalon, holds the all-around riding title of Australia, and also holds records for long-distance swimming. She now is a quoted correspondent for Australia newspapers and writes scenarios for cinema companies on the side.

The Gipsy Girl, the yacht on which the long cruise is to be made, was built by Fellows & Stewart on the lines of the famous Gloucester fishing schooner and has accommodations for ten persons. The crew will consist of a cook and a cabin boy. The vessel is equipped with a 100 horsepower Starling engine, which will drive her at a speed of 7 knots. Her schooner sail rig has a catch of nearly 1600 square feet of canvas. Her cruising radius is rated at six months. The vessel has been completely equipped and provisioned and, when christened and launched, she will be ready to sail immediately.

The schooner has a length of 45 feet, a beam of 17 feet and displaces 40 net tons. She has a fish deck.

Loot Residence; Take Fortune in Jewelry, Clothing
Five thousand dollars' worth of jewelry and clothing were stolen from the residence of V. C. Furla, 1723 North Harvard Boulevard, early yesterday morning, according to a report made to the Hollywood Police Station.

The burglars gained entrance through a rear door with a glass door. Part of the loot consisted of diamonds and platinum. Officer Ault of the Hollywood station was detailed to investigate.

FOSTER COMPANY WILL START TWO WELLS.

HEAD OF CONCERN BRINGS NEWS OF ACTIVITY IN THE MEXIA FIELD.

Within the next four or five days actual drilling operations will start on two wells in the Me-hayah holdings of the Fred B. Foster Company in Mexia, Tex., according to word brought to Los Angeles yesterday by Fred B. Foster, president of the company, who made an extended stay in Mexia. Before leaving Texas, Mr. Foster says he saw the timber for the two rigs being assembled and plans called for commencing unit-drilling operations some time during the week. The two wells will be sunk at once, marking what he says will be a precedent in independent production activity in Texas, this being, he declares, the first time an independent company has drilled two wells at once in a new Texas field.

Two prize drilling crews, said to be among the fastest in Texas, will drive the Foster Me-hayah wells. They will compete with each other in a hot race to reach the oil sands. Location for the two rigs was established by one of the best-known and most successful operators in the Mexia field, Mr. Foster says. Completion of the first pipe-line into Mexia also was reported by Mr. Foster. The Magnolia Oil Company was the first concern to reach the district with a pipe-line. The Sinclair, Humble and Prairie Oil Companies also are running a line to the field and the Humphreys Oil Company is laying a line from Mexia to the coast. This pipe-line activity, Mr. Foster says, has emphasized the competition among refining companies for Mexia's production.

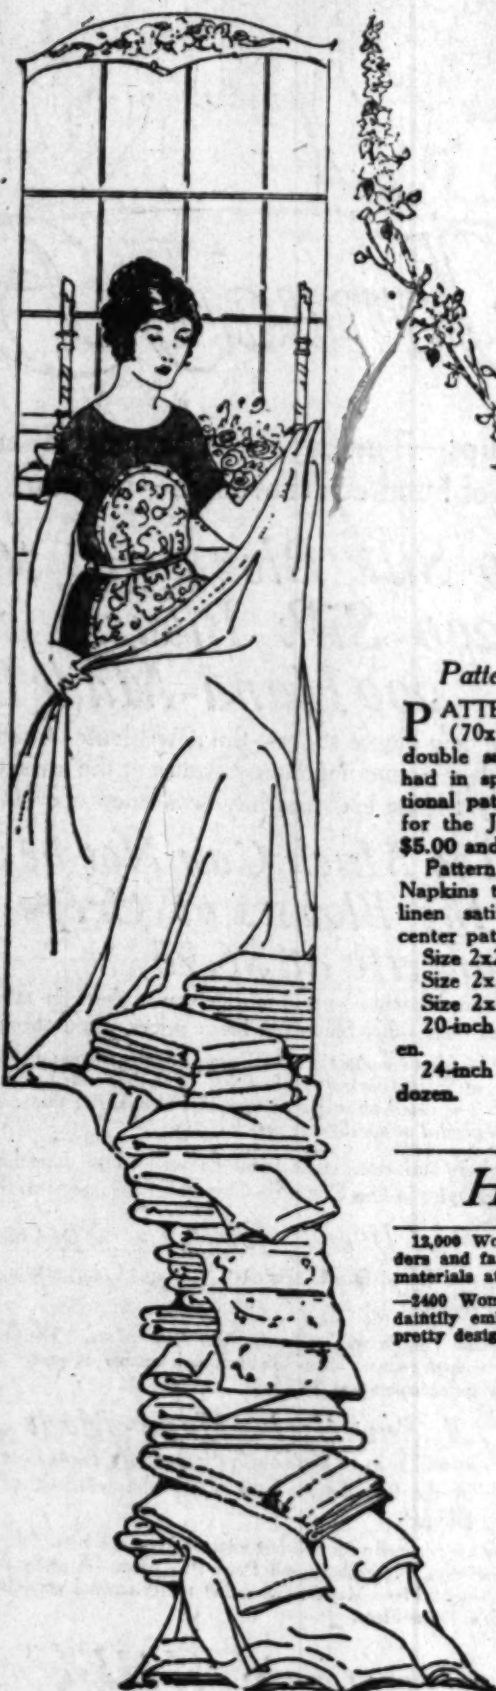

J. W. Robinson Co.

This Store Keeps

All

Abundant in beauty as the blooming fields of springtime, casting light and brightness throughout the store, the January White Sales usher in the New Year.

Everywhere is the immaculate freshness that is the joy of the young and the new.

WHITES

Philippine Underwear

THE talent in needlework of the natives of the Philippines give distinction to fine materials, a distinction which all women love.

Robinson's have almost endless groups of this delightful Lingerie which has arrived in time for the January White Sales. The figures at which the various garments are marked are almost incredible.

News Note: Gowns at \$4.95 have embroidered scallops around the bottom, a feature that is very new. A garment at \$3.95 is convertible, as it may be either a straight Chemise or an envelope.

\$2.45, \$2.95 and \$3.95

Gowns and Envelope Chemises have embroidered scallops; some have small amounts of additional embroidery. \$2.45.

Gowns and Envelope Chemises that have embroidered designs that are quite out of the ordinary. \$2.95.

Gowns and Envelope Chemises. Some of the latter have shoulder straps of ribbon—an innovation—or of scalloped self-material. The Gowns are sleeveless or have short sleeves. \$3.95.

Girl's Knicker Drawers

1000 Pairs of Muslin and Nainsook Knicker Drawers, embroidered and lace trimmed are offered in sizes 1 to 16 at 50c to \$2.95.

Girls' Gowns and Slips

The Gowns are slip-overs daintily trimmed with lace and embroidery. \$1.00 to \$3.95.

500 Princess Slips in many pretty styles for the girl of 2 to 16 years, are priced at \$1.25 to \$6.95.

FOURTH FLOOR

Satin and de Chine

SILK Underwear—a strong partisan much indeed for ship—one who likes Robinson's Silk Underwear for its softness of material and thoroughness of finish.

For the January White Sales is available at very low prices.

News Note:—Gowns before are Gown of coral and turquoise. They have wide bands of real silk. Ordinarily they would sell for \$8.95. Sale price, which is \$3.95.

\$1.45 \$2.95

Chemises with regulation shoulder straps and white satin. The model has a medallion in the yoke.

\$3.95 \$4.95

Gowns of crepe de chine, flesh, orchid, blue and white. Some are tailored with lace. Envelopes in flesh, satin, crepe de chine and dium.

Gowns and Envelopes. Many of the models are of fashion. Silk Underwear in the January White Sales is higher priced than given herewith.

cepts of All Day Saturday

Robinson's Seventh and Grand

The simple and the intricate in lacy lingerie; the silvery surface of satin damasks; sheer fabrics, favorite silks, like the fine-spun stuffs of which spring flowers are made, yet durable and fine and feminine.

BLOUSES

Fine Voile Blouses, \$5.95

AN IMMACULATE white Blouse from Robinson's gives its wearer a gratifying feeling of being well dressed. Fine French Voile and Cross-Bar Voile are the materials which fashion the Blouses offered in the January White Sale. They are in tuck-in or over-the-skirt styles. Trimmings are of real filet, lace, real Irish crochet, hand embroidery, drawnwork, pleated ruffles of self-material or cluster of pin tucks.

The Blouses have for the most part elbow sleeves and shawl collars. Some are collarless, not all sizes are shown in all styles, but a good range of sizes is included. 175 Blouses, taken from regular stock, are reduced to \$5.95.

THIRD FLOOR

Crepe de Chine Blouses, \$5.95

BLOUSES of Crepe de Chine of fine quality are in many modish styles for midwinter. They have Peter Pan and shawl collars, and most of them have long sleeves. Hand-embroidered dots and sprays, cluster of pin tucks, narrow ruffles and fine Val. lace edging are some of the trimming motifs.

100 Crepe de Chine Blouses are taken from regular stock and reduced to \$5.95.

THIRD FLOOR

Tunic, \$29.50
New imported models, every one! They represent a most unusual opportunity to the woman who wants an evening gown of the better sort at a small price. Robust crepe and light rayon there are such lovely colors as black, navy, blue, red, rose and fuchsia, brown, navy and black.

White Sales

Crepe de Chine Under

SILK Underwear strong partisanship—one like much indeed for many reasons. Price likes Robinson's Silk Underwear for its materials and thoroughness.

For the January White Sale is available at very low prices.

News Note—Some time before are Gowns of coral and turquoise. They have wide bands of real filet and lace. Ordinarily they would sell for almost double price, which is \$8.95.

\$1.45 \$2.95

Camisoles with bell sleeves, blue and flesh crepe regulation shoulder. Tops and white satin. Trimmings with lace. In an assortment of styles.

\$3.95 \$4.95

Gowns of crepe de Chine, flesh, orchid, blue and white. Some are tailored; others are trimmed with lace. Envelopes in flesh crepe de Chine and white. Higher prices than elsewhere.

Muslin Underwear

PRIce is one attraction, quality another, in the Muslin Underwear featured for the January White Sale. Robinson's have taken painstaking care to assemble exceptional values for this long anticipated event. Always it has been an offering of Muslin Underwear of merit at low prices, but this year it is even a little better than that.

News Note: A new idea in muslin chemises and gowns: Though they are machine-made, the filet which trims them is handmade. The general effect is of garments of much higher prices. For Tuesday they will be marked at \$2.45, \$2.95 and \$3.95.

Bloomers and Step-In Drawers, 95c

of flesh and white batiste and flesh and white Windsor crepe. With elastic at the waist. All sizes.

Gowns and Envelope Chemises, \$1.45

Gowns in slip-on style, in white, flesh, blue, yellow and figured batiste. A model in plain white has an initial on the front. Envelope Chemises of muslin, cambric and nainsook. Strap or regulation shoulder.

Gowns and Envelope Chemises, \$1.95

Some of the Gowns are in plain tailored styles. Others are trimmed with lace, embroidery or hemstitching. Climates and set-in sleeves. Gowns of Windsor crepe in white, flesh, orchid and some with butterfly figures and other patterns. Envelope Chemises are similar to those at \$1.45 except that the trims are finer.

All White Gowns, \$2.45

ANYONE Gowns in many desirable models. Some of the 10c to 25c are trimmed with Cluny and other lovely DANSAN lace.

SECOND FLOOR

Ivory Tricotine and Twill, \$3.45

TWO of the best and most popular weaves that there are have a specially low price for the January White Sale. Ivory Tricotine and Twill of Robinson quality make frocks and suits of distinction. They are all-wool, soft in finish and of good, substantial weight. 54 inches wide, \$3.45 a yard.

CREAM AND IVORY WOOLENS AT \$2.35 A YARD

Of medium weight, yet firm enough to hold a pleat well, these Cream Woollens at \$2.35 a yard are unusual even for a January White Sale. They will answer all purposes to which a good white material is put. Width, 54 inches, and the price, \$2.35 a yard.

SECOND FLOOR

600 Yards New Coatings at \$3.65

SOMETHING new and very smart has come to Robinson's from one of the foremost coating mills. CHEVRONELLE on foundation colors of blue, gray, brown or black sprinkles a myriad of colored threads that blend with a most attractive effect. ONDULE achieves the soft beauty of chenille in its surface. A reindeer backing is interwoven with French blue; black with blue-gray; navy with green, and so forth. Both Coatings are 56 to 58 inches wide and priced for Tuesday, at \$3.65 a yard.

SECOND FLOOR

MEN'S SECRETS TOLD BY GIRL

Kittie Doner Knows All About Masculine Attire.

Best Dressed "Man" on the Stage is a Woman.

However, She Shys on Careers; Still Rolls Over.

BY GRACE KINGMA.
"There lies the boyhood!" Kittie Doner heaved a moan and tossed her wig on the dresser.
"Yes, there lies the youth!" Kittie grinned. She hung up her trousers, carefully, so the creases would stay in.
The best dressed man in Manhattan, you know, is a woman.
"Why did you do that?" asked Kittie, as she smoothed out her suspenders.
"Too many pretty girls," explained Kittie. "Too much competition. Can you imagine me bucking up against my sister Rose and her curls? What chance was there for a little punk like me? That's what Al Johnson used to call me—a little punk!"
"Well, how do you like 'em?" Kittie asked.
"Fine! All but the evening clothes! Say, I'll never be mad at a man again if he stays away from a party. The collar cut into your trousers!"
"How about the collar button?" Kittie asked.
"I breathe in suspense. Does a man really have to wear it?"
"I don't. If I have a collar button, I always have mine other handy."
"And the garter?" Kittie asked.
"Mix on the Boston garden. Kittie rolls her eyes.
"What have you to say of the psychology of men's clothes?" Kittie clasped her brow. "Psychology?" she gasped. "Oh, yeah. I know what you mean. Say, the minute I get into boys' clothes I want to get up and give my chair to a lady!"
"One nice thing," Kittie began, "men don't change their fashions very often. If a man adds an inch to the tail of his coat in a year, he thinks he's a regular fashion designer, and—"
"He doesn't, oh!" demanded Kittie. "Well, you just ought to have to read the men's fashion magazines, that's all. And let me

IT'S EASY TO DRESS UP LIKE A MAN TOO MUCH!

tell you, old dear, put the stress on the word 'man'. Kittie is actually with about their clothes where they get them, how they came in, and on very much. If you want to please a man, just notice his new suit. He'll be pleased up then if I tell him he has a mighty likeness."

Kittie Doner has the reputation of one proved dressmaker. She's the only girl in the world who can safely give needles to her friends.

LOOKS FOR THE FUTURE.
"How about the men-to-be?" Kittie asked.

"My dear," Kittie said, "the way out of her boy days was. 'My dear, the frank friendship of men is to be feared.' Kittie rolled her eyes. There's so real to each other. I like it when they take me for a boy. But not when I'm a girl. I'm dressed in boy clothes, and I don't know I'm a girl, don't you?"

IT'S ALRIGHT TO BE A MAN—SOMETIMES

me. They always think I'm a fresh kid and want to hit me. But say, I'd love to mix in a little bit of fight—honest I would—just to see how strong I am."

As for the naughty stories a girl might hear—Kittie blushed. Even as she bent over to pick a bit of dust from her trousers, she blushed.

KEEPS BEHAVING POSTED.
"It was back stage, it seems, and a stranger was visiting. He told the story to a group of men, with Kittie in the background, and the naughty tang to the story—well, you know how it isn't came out before anybody could stop him. Kittie fled."

"What's the matter with that guy?" asked the offending youth. "That's a girl," exclaimed somebody in the crowd indignantly.
"Good Lord!" exclaimed the young man.
"He ran away and never even came back for his cane," explained Kittie.

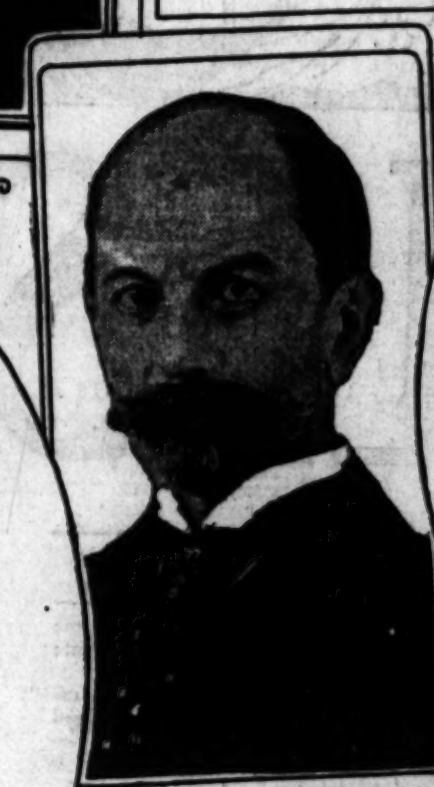

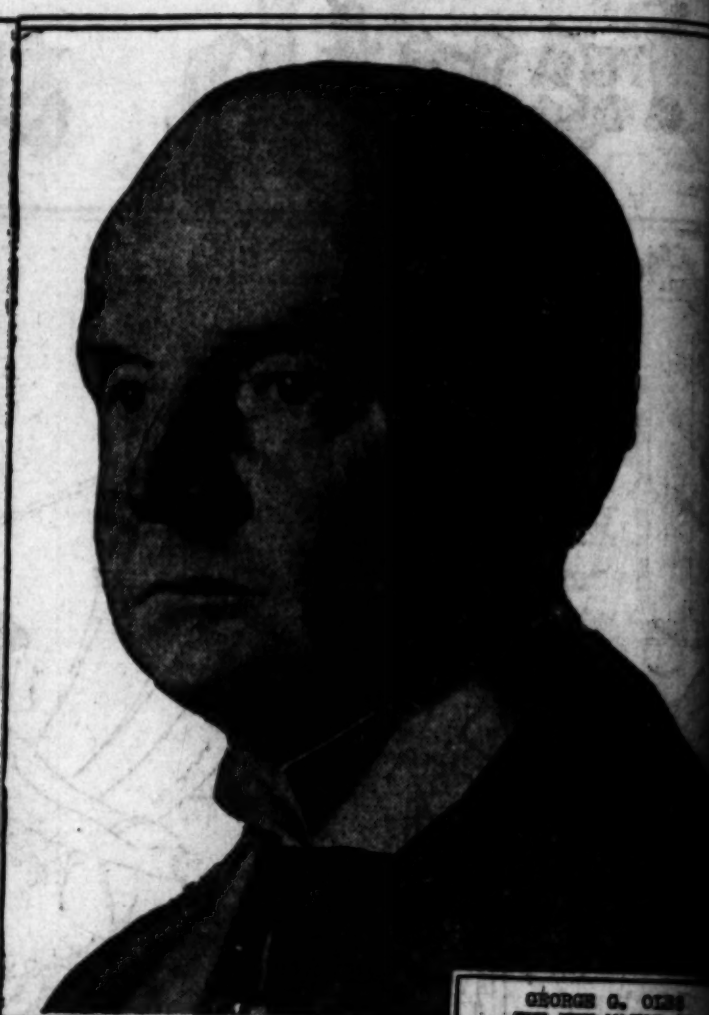

Dancing is awfully hard on those tight trousers. A ripping, tearing sound is one of Kittie's nightmares.

"One nice thing among others about having Kittie Doner for your girl, she can keep you up on the men's styles, and you can always give her a necktie or a pair of suspenders—"

CALIFORNIA IS SECOND IN PETROLEUM OUTPUT.

Million Barrels Increase in Crude Oil Production is Reported for November; Oklahoma Leads.

WASHINGTON, Dec. 31.—California shot into second place in the United States in oil production during the month of November. It passed the production in Texas and stood up close to the leader in production, Oklahoma. It showed almost a million barrels increase in production over October, part of which was due to the settlement of the oil strike and part was due to new wells and increased activity on some of the dormant properties. California's production for November was 8,804,000 barrels, with an average of 293,467 barrels per day, as against a production in October of 7,665,000 barrels, with a daily average of only 257,903 barrels.

Texas, which exceeded California's production in October, produced 8,573,000 barrels for November, with a daily average of 285,767.

OKLAHOMA LEADS.

Oklahoma produced 600,000 barrels more than California for the month of November and an average per day was 21,000 barrels more than the California production. California produced practically one-fifth of all the oil in the United States during the month.

Daily average production of petroleum in the United States increased 219,243 barrels during November, as compared with October, according to the United States Geological Survey. The greatest increase was in California, owing to the termination

of the oil strike in the oil fields and in Texas as a result of developments in the Mexico field. Gains in daily average production are also recorded for Wyoming, Oklahoma, Kentucky, Pennsylvania, Ohio, Tennessee and Colorado. Decreased daily average production is reported for Kansas, Louisiana, Arkansas, Illinois, Montana, West Virginia, New York and Indiana.

PETROLEUM IMPORTS.

Daily average imports of petroleum increased 95,735 barrels and 12,993,763 barrels were imported during November. Daily average exports of crude oil increased by 4722 barrels.

Estimated daily average consumption during November was 1,554,877 barrels, a gain of 93,173 barrels during the month.

Total stocks increased 2,399,000 barrels during November. This, however, was chiefly due to a gain of 2,029,000 barrels of Mexican petroleum held in the United States by importers. Net pipeline and tank farm stocks east of California increased 323,000 barrels but midcontinent stocks decreased 620,000 barrels.

Following are comparative production figures:

COLLEGE BOOT SHOPS

Pre-
Inventory

There is a fertile field in the intercoastal freight trade for refrigerator ships, according to Lancaster W. Collins, general traffic agent for the Elder Steamship Company of New York, who is on a trip of inspection to the Pacific Coast. His firm has recently turned over three of their refrigerator ships to the Nacoso Line, Apple growers of Oregon and Washington have endorsed the new refrigerator service, he said, and already more than 50,000 boxes of apples have been booked for shipment to New York on the steamer Neponset, due to sail from the north on January 17. This is because water rates to the east coast are from 20 to 25 cents lower than rail rates, he said.

Regarding perishable shipments available on this coast, Mr. Collins says his vessels will undoubtedly load provisions, such as eggs, butter, fresh fruits and vegetables, and much canned and dried fruits. When shippers of these wares find they can transport their goods to the Atlantic market by water at a cheaper than rail rate, and under refrigeration, guaranteeing their arrival at destinations in a merchantable condition, they will be quick to book cargo via the canal, Mr. Collins believes.

He is of the opinion that the new refrigeration service will tend to open up unexplored markets in the East, which handle perishable goods.

"Such commodities as fresh meats and fresh fish will make excellent perishable cargo for west-bound voyages of our ships and I am certain shippers of these goods in the East will agree with me. They never moved their wares via water before because they didn't have the facilities."

In the event that the steamers Neponset, Doehra, Deerfield and West Calmar, now in the company's refrigerator service, prove inadequate, other ships will be added to the service, Mr. Collins said. Each of these ships has a capacity for 100,000 boxes of apples, 150,000 boxes of citrus fruits, or 150,000 crates of fresh eggs.

The review of the mail and steam tonnage markets for last week, as made by Sudden & Christensen, Inc., is as follows:—Steamer chartering was limited throughout the week, due primarily to a scarcity of freights in almost every line. The light offering of tonnage for the prompt delivery at the rates bid was also a factor in restricting business. There are a few inquiries from shippers of grain and sugar for carriers, and a moderate inquiry from West India charterers for a single trip and time charter boats, but in all other trades orders are unusually scarce. Rates continue in a steady position, due to the fact that the available supply of suitable boats is limited and owners are holding for more favorable terms.

Sail tonnage—The sailing vessel market was quiet, yet a good demand prevailed in tonnage for several of the coastwise and West India trades. Freight rates in the long voyage, South American and trans-Atlantic trades continued scarce. Rates were firm at the low end, but a few better offers, owners generally demanding substantial advances over recent prices.

Japanese tramp freighters operating out of Atlantic Coast ports to the Orient are proving serious competitors of American ship operators through solicitation of cargoes at rates much below those established by the Atlantic-Pacific West-bound Conference. Shipping men along the Coast have been advised that the rate conference of the lines operating from New York to Far Eastern ports has practically ceased to function, following the refusal of two of the members to concur in the latest rate reductions. The general cargo rate was cut from \$23 a ton to \$20; the iron and steel rate from \$10 to \$8, and the automobile rate from \$12 to \$11.

A sudden drop in the freight offered for shipment was followed by undercutting of the conference rate by Japanese tramps and companies outside the conference.

Harbor Chamber Will Shoot at Many Targets.

Here are a few of the targets the Chamber of Commerce of Los Angeles Harbor is going to

"shoot at" during 1922, as outlined by Secretary Roy L. Beaton: Street improvement, park development, municipal bathing beach, municipal ferry, tunnel under west basin from Wilmington to San Pedro, greater Y.M.C.A. for Army and Navy harbor improvements, State highway from Point Fermin to Redondo Beach, extension of Western avenue and Vermont street, a membership of 1500.

News Notes From Busy Harbor.

WATER FREIGHT FIELD GROWING.

Perishable Shipments Via Canal Increase.

Refrigerator Vessels Prove Popular.

Lower Than Rail Rate Also a Factor.

There is a fertile field in the intercoastal freight trade for refrigerator ships, according to Lancaster W. Collins, general traffic agent for the Elder Steamship Company of New York, who is on a trip of inspection to the Pacific Coast. His firm has recently turned over three of their refrigerator ships to the Nacoso Line, Apple growers of Oregon and Washington have endorsed the new refrigerator service, he said, and already more than 50,000 boxes of apples have been booked for shipment to New York on the steamer Neponset, due to sail from the north on January 17. This is because water rates to the east coast are from 20 to 25 cents lower than rail rates, he said.

SHIP BRINGS CROWD.

Steamer Yale Loaded with Bear Supporters from North.

With every stateroom taken, the big, white passenger steamer Yale of the Los Angeles Steamship Company will arrive at San Angeles Harbor this morning with a load of University of California students and boosters, bound for the big football game at Pasadena. A special through train from New York to San Angeles will be provided by the Pacific Electric to carry the route.

Tonight the Harvard, sister ship to the Yale, will take the University of California delegation back to San Francisco, sailing at 8 o'clock. She is due to arrive at the Bay City shortly after noon tomorrow.

WILL FIX SCHOONER.

Lady Mine will be Repaired in Los Angeles Harbor Yard.

The British schooner Lady Mine, dismantled and battered by a hundred-mile gale while en route to Esenada from Vancouver, is to be repaired and overhauled at the yards of Fellows & Stewart, having put into Los Angeles Harbor in tow of a San Francisco tug several days ago.

The Lady Mine was the center of interest for a group of Federal officers, following her arrival. It was learned that when she left Vancouver she had on board 1000 cases of whisky. Capt. Carl Aul, her master, told the investigators he threw the whisky overboard to lighten his ship when it encountered the gale.

NEW YEAR IS STARTED UNHAPPILY.

Burglars, Sneak Thieves Are Active at Port; Two Suspects Are Held.

Burglars, hold-up men and sneak-thieves spent the last night of the old year and the first few hours of 1922 in profitable employment at Los Angeles Harbor, according to yesterday's police reports.

Throwing a brick through the window of the San Pedro Hardware store, 236 North Sixth street, two burglars entered and made off with three Colt automatic pistols, valued at \$155. The home of James Reed, 334 Tenth street, was also looted of wearing apparel, a box of pennies, a valuable collection of old coins and a wrist watch.

Phillip Kalla of 335 Beacon street reported to the police that he was attacked by handits on the highway leading to the outer harbor, who took his coat, hat, shoes, overcoat and \$17.85 in cash. His assailants struck him on the head with a longshoreman's bailhook, he said. He was treated by Police Surgeon Langan.

Police arrested Blaine Singh, 43, a Hindoo, after they saw him "rolling a drunk" at Fourth and Beacon streets before daylight. He told the police the helpless man was his friend but he could not give his friend's name, they say. Two valuable watches were found on the Hindoo, and he was booked on a charge of suspicion of robbery.

When police late Saturday night discovered Harold Grove, 23, a seaman, attempting to pawn a watch at the harbor, they took him to the station to question him. As he was entering the door Grove threw a watch into the railroad yards 100 feet away. The police picked up the places and booked Grove on a charge of suspicion of robbery.

Harbor Record is Broken by Building Boom.

Smashing all records in the history of Los Angeles Harbor, building permits for the harbor district for 1921 totaled \$5,777,170 at the close of the year's business in the office of the building inspector at Los Angeles Harbor. This is an increase of more than 50 per cent over the building record of the harbor for the preceding year.

The total went over the \$3,000,000 mark, while in the best previous year the \$2,000,000 mark was barely topped. December was the best month of the year, with buildings with total value of \$210,651 started. Building activities for the past five years are shown in the following figures: 1917, \$1,850,129; 1918, \$2,158,019; 1919, \$1,174,722; 1920, \$1,728,723 and 1921, \$5,777,170.

What Eastern Folks Think of Los Angeles Times—Annual Midwinter Number

A Last Year's Letter from Boston, Mass.

Containing a hint for Southern California

Los Angeles Times

Los Angeles, Cal.

Gentlemen:

I've just finished reading one of the magazines included in your Midwinter Number (this afternoon I loaned my brother in South Framingham the part devoted to agriculture,) and I can't resist the temptation to write and thank you for the pleasure your wonderful publication affords me.

I suppose you who live in Southern California get so accustomed to orange groves, palm trees, bungalows and boulevards that you forget how interesting these things are to us who live in the East. At any rate those who write me from Los Angeles seldom mention the things I like to know about, and as for pictures, the only ones I get are snapshots of somebody's new baby.

Your Midwinter Number tells eastern people what our California friends overlook, and judging by the illustrations there are a lot of things going on out there that we never hear of. It may also interest you to know that I enjoy the advertising pages as much as any part of the magazine. It is wonderful to think that in the ten years since I visited California so many factories have sprung up, and especially wonderful to see what a great variety of things you manufacture.

I am so greatly indebted to you for the enjoyment and pleasure received, and as I am planning to move there I am "getting my bearings" in advance.

Thanking and congratulating you, I am,

Very truly yours,

(Mrs.) Eva D. Shallingsworth.
